MAINAMATI SURVEY SCHOOL.

(Post-office Mainamati, district Tippera.)

Admission Rules (Provisional).

THE Mainamati Survey School is a Government institution under the administrative control of the Director of Industries, Bengal. It is situated on the Mainamati Hill, four miles from the Comilla railway station in the Tippera district.

2. The Principal is charged with the general control of the school and the maintenance of discipline.

3. The full course of instruction extends over two years: either the full course may be taken, or the first year's course only. At present the session for the first year's course begins from the 1st August, terminating on the 31st July of the following year.

4. The session for the second year's course extends without a break from the first Monday in November to the middle of September of the following year.

5. It is a residential institution, and the students are required to reside in the school premises and must conform to the rules sanctioned by Government. Students may live with their parents or with approved guardians with the special permission of the Principal. The messing charges for Hindu students average about Rs. 10 per month. Owing to the paucity of Muhammadan students they are allowed to make their own messing arrangements.

6. The qualifications for admission to the first year's course are :—

(*a*) A sound knowledge of elementary arithmetic.
(*b*) Ability to write simple English and vernacular.
(*c*) Fitness for arduous field-work.
(*d*) A certificate of character from the head of the institution where he was last educated.

NOTE.—Preferance will be given to those who have passed the Matriculation Examination or received higher education.

7. The maximum age of the candidates for admission to the first year's course should be under 21 years on the 1st January of the year of admission, but an exception to this rule may be made in special cases.

8. Application for admission into the first year's course must be accompanied by a registration and examination fee of Rs. 3 and should reach the Principal's office on or before the 30th June. The registration and examination fee shall, in no case, be refunded.

9. Candidates who do not possess a fair knowledge of English will not be ordinarily promoted to the second year class.

10. All payments, whether on account of tuition fees, boarding and lodging, must be made at the Principal's office on or before the 15th of each month. After that date no payment shall be taken, unless accompanied by a fine of Re. 1 for every three days' delay. If the payment is not made during the month for which it is due, the defaulting student's name shall be struck off the school roll, and he will not be re-admitted until he has paid all arrears, together with any fines which may be due from him, and a re-admission fee of Rs. 5.

11. The following monthly fees, payable for twelve months, are charged :—

	Rs.	A.	
School fees	3	0	
House-rent	0	8	
Reading room fees	0	2	
Athletic fees	0	8	Charged for eleven months in the year.

12. The full messing fees shall be charged every month during the school session, which is calculated to be about ten and-a-half months yearly.

13. The school remains closed on all gazetted holidays and for a long vacation for six weeks from about the middle of September. During the vacation every boarder shall pay a contribution not exceeding Re. 1 a month towards the cost of maintaining mess servants.

14. Leave for short periods not ordinarily exceeding ten days in a year may be granted to students by the Principal in special cases. Students present at the school but unable to do any work on medical ground are excused from attending the class on the recommendation of the resident medical officer, but frequent leave on petty excuses may render a student medically unfit for the course and his name may be struck off the roll.

15. The admission fees are as follows :—

	Rs.	
Admission to school	2	
Ditto hostel	2	(Hindu students only).
Ditto athletic club	1	

16. Every student shall pay a caution-money deposit of Rs. 5. This sum will be refunded to the student when he finally leaves the school, after deducting any charges for loss or damage done to school or hostel property or non-payment of any dues.

17. Shortly after admission each student must provide himself with a set of drawing instruments consisting of a pair of compasses, one bow-pencil, one drawing pen, a decimal scale, a rectangular protactor and a pair of set squares.

18. Each student must provide himself with his own bedding, including a mosquito-curtain.

LAND SALE NOTICE.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated in metre gauge miles 3 to 5, northern sections, in villages Jhowdia and Majdia, originally acquired for the construction of N B State Railway, in the district of Pabna, will be put up to sale at 12 o'clock on 21st July 1925, corresponding with the Bengali 5th Sraban 1332 B.S.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold (as a temporarily-settled estate of the district) to the highest bidders subject to annual assessment of revenue to be settled at the time of the sale.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it (and a regular conveyance will then be granted to the purchaser).

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues,, Imperial Secretariat Buildings, Calcutta.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 27th May 1925.

Summary.—During the week under review heavy rain fell in the Dacca and Chittagong Divisions causing damage to young jute and paddy plants in certain low land tracts; elsewhere the fall was generally light to moderate. Ploughing for and sowing of winter paddy in seed beds are progressing fairly. Sowings of autumn crops still continue in some West Bengal districts, while weeding is proceeding slowly in the highland tracts of Eastern Bengal. The average price of common rice for the province has risen by about 0·94 per cent. as compared with that of the previous week.

COMMERCE.

Simla, the 23rd May 1925.

No. 236-C.—The following draft of the rules which it is proposed to make in exercise of the powers conferred by section 12 of the Cotton Ginning and Pressing Factories Act (XII of 1925), is published for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 1st July 1925.

Any objection or suggestion which may be received in respect of the draft before the said date will be considered by the Governor General in Council :—

Draft Rules under the Cotton Ginning and Pressing Factories Act.

Act No. XII of 1925.

In exercise of the power conferred by section 12 of the Cotton Ginning and Pressing Factories Act, 1925 (XII of 1925), the Governor General in Council is pleased to make the following rules :—

Short title and commencement

1. (1) These rules may be called the Indian Cotton Ginning and Pressing Factories Rules, 1925.

(2) They shall come into force on the first day of August 1925.

2. In these rules—

Definition. "Act" means the Cotton Ginning and Pressing Factories Act, 1925;

"Section" means a section of the Act.

3. The owner or lessee of every cotton pressing factory shall apply to the authority appointed to receive returns under sub-section (*1*) of section 5 for the allotment of the mark required by section 4 to be used for such factory. Such application shall be made, in the case of factories in existence at the commencement of these rules, on or before the 1st September 1925, and in case of factories constructed thereafter, not less than one month before work commences in the factory:

Provided that the authority aforesaid may at any time allot the mark to be used in a factory in respect of which no application has been made and may intimate the allotment to the owner of such factory.

4. (1) The special mark allotted to each factory shall consist of a number denoting the district and a letter denoting the province in which the factory is situated together with a number denoting the factory.

Special mark

(2) The letters denoting the province shall be as follows:

For presses situated in the Madras Presidency the letter	...	M.
For presses situated in the Bombay Presidency the letter	...	B.
For presses situated in Bengal the letter ...	...	L.
For presses situated in the United Provinces the letter	...	U.
For presses situated in the Punjab the letter ...	...	P.
For presses situated in the Central Provinces the letter	...	C.
For presses situated in Bihar and Orissa the letter	...	Q.
For presses situated in Assam the letter ...	...	A.
For presses situated in the North-West Frontier Province the letter	...	F.
For presses situated in Ajmer-Merwara the letter	...	J.
For presses situated in Delhi the letter ...	...	D.

(3) The number denoting the factory shall run consecutively within each province.

Marks not transferable 5. No special mark once allotted shall be transferred to another factory.

6. The serial number shall consist of two parts separated by a star. The first part shall consist of two numerals being the last two integers of the calendar year in which the cotton year has commenced and the second part shall be the running number of the bale according to the press factory register. The cotton year shall commence on the first day of September in each calendar year and shall terminate on the thirty-first day of August next following, except in the Madras Presidency where the dates for the commencement and ending of the cotton year shall be the first day of February and the 31st day of January respectively.

7. On and after the 1st October 1925, every bale of cotton pressed in a cotton pressing factory shall be marked in the following manner:—

Manner of marking The special mark and the serial number of the bale shall be indelibly punched or stamped on any part of the central hoop of the bale in such a manner as to be clearly decipherable: Provided that if the bale is lashed with less than three hoops the marks shall be punched on either of the hoops (if two hoops be used) or near the middle of the hoop if one hoop only be used. The letters and numbers used shall in no case be less than one-quarter-of-an-inch in length. English letters and numbers only shall be used. The factory mark shall be separated from the serial number by a star, and the following order shall be observed:—

Number denoting district—letter denoting province—number denoting factory—Star—numerals denoting cotton year—Star—running number of bale.

Illustration.

A bale of cotton pressed at a factory in a district in the Bombay Presidency in February 1926 is marked "11 B 161 * 25 * 3456." In this mark 11 B 161 is the factory mark 11 denoting the district, B the province and 161 the number allotted to the factory; 25 * 3456 is the serial number, 25 representing the cotton year commencing on September 1st, 1925 and 3456 the running number of the bale pressed in the factory.

8. The statements to be compiled by Local Governments under sub-section (*2*) of section 5 shall be published weekly in the local Official Gazette and in the supplement to the *Gazette of India* in the form appointed for the province concerned in the annexed Schedule.

Compilation and publication of returns.

RESOLUTION.

TARIFFS.

The 19th May 1925.

No. 47T.(45).—In a Resolution of the Department of Commerce, No. 47-T.(5), dated the 20th September 1924, the Government of India announced their decision to appoint an expert Committee, representative of the interests concerned, to enquire and report what measures can be taken to stimulate the export of suitable coal from Calcutta to Indian and Foreign ports and whether a system of pooling and grading export coal could advantageously be introduced.

2. The Committee assembled in October 1924 under the presidency of Mr. F. Noyce, C.S.I., C.B.E., I.C.S., and included the following members :—

C. S. Whitworth, Esquire, Chief Mining Engineer to the Railway Board.
F. C. Leggo, Esquire, C.B.E., Director of Wagon Interchange.
S. C. Stuart-Williams, Esquire, Chairman, Calcutta Port Trust.
A. A. F. Bray, Esquire, Chairman, Indian Mining Association.
W. C. Banerji, Esquire, Vice-Chairman, Indian Mining Federation.
Sir Rajendra Nath Mookerjee, K.C.I.E., K.C.V.O., of Messrs. Martin and Company, Calcutta.
The Hon'ble Mr. J. W. A. Bell of Messrs. Mackinnon Mackenzie and Company, Calcutta.
Mr. H. P. V. Townend, I.C.S., acted as Secretary to the Committee.

3. The report of the Committee has now been received and is engaging the attention of the Government of India. It will be published on Friday, May 22nd, when copies will be available for sale to the general public.

4. The Government of India take this opportunity of expressing their appreciation of the valuable services rendered by Mr. Noyce and the Committee throughout this enquiry and for their able and comprehensive report on a difficult and technical subject.

ORDERED that a copy of the Resolution be forwarded to F. Noyce, Esquire, C.S.I., C.B.E., I.C.S., lately President, Coal Committee, and to all the gentlemen mentioned in paragraph 2 of the Resolution.

ORDERED also that the Resolution be published in the *Gazette of India*.

NOTIFICATION.

ESTABLISHMENTS.

Simla, the 30th April 1925.

No. F.-178-13-VI-24.—The following resolutions, dated the 24th February 1925, made by the Secretary of State for India in Council under sub-section (*2*) of section 96 B of the Government of India Act, are published for general information :—

In exercise of the powers conferred by sub-section (*2*) of section 96 B of the Government of India Act, the Secretary of State for India in Council has, with the concurrence of a majority of votes at a meeting held this 24th day of February 1925, made the following amendment to the Civil Service Regulations, with effect from 1st April 1924, namely :—

For Article 475 B of the said Regulations the following shall be substituted, namely :—

"475 B. Special additional pensions may be granted by a local Government to military officers liable to transfer to the supernumerary list who have rendered approved service in certain high civil posts, on the following conditions :—

"(1) Additional pensions may be granted at the following rates :—

"(*i*) At the rate of 66*l.* 13*s.* 4*d.* a year for each completed year, not exceeding three, of effective service in any civil post or posts which on 1st January 1922 carried pay not less than Rs. 4,000 a month ;

"(*ii*) At the rate of 33*l.* 6*s.* 8*d.* for each year, not exceeding three, of effective service in any civil post or posts which on 1st January 1922 carried pay not less than Rs. 3,000 a month ;

provided that the additional pension admissible under this rule shall not exceed 200*l.* and that the total pension of an officer in receipt of pension under this rule shall not exceed 1,000*l.*, or, if the additional pension be wholly at the lower rate, 900*l.*

"(2) In the case of an officer serving in a qualifying post carrying progressive or time-scale pay with a maximum of Rs. 3,000 or Rs. 1,000, that portion only of his service during which he has drawn the maximum pay of the post shall qualify for additional pension at the lower or higher rate, respectively.

"(3) Service in a post qualifying for the higher rate of additional pension may count for the lower rate, provided that no period of service shall count for both lower and higher rate of pension.

"(4) Effective service for the purpose of this Article shall be interpreted as in Article 475A."

In exercise of the powers conferred by sub-section (*2*) of section 96B of the Government of India Act, the Secretary of State for India in Council has, with the concurrence of a majority of votes at a meeting held this 24th day of February 1925, made the following amendment to the Superior Civil Services (Revision of Pay and Pension) Rules made under the said section on 9th December 1924, namely :—

In Rule 3 of the said rules, after the word "pay" the words "and pensions" shall be inserted.

Rule 15 of the said rules shall be omitted.

These amendments shall be deemed to have come into force with effect from 1st April 1924.

LAND SALE NOTICE.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated in metre-gauge miles 3 to 5, northern sections, in villages Jhowdia and Majdia, originally acquired for the construction of N. B. State Railway, in the district of Pabna, will be put up to sale at 12 o'clock on 21st July 1925, corresponding with the Bengali 5th Sraban 1332 B.S.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold (as a temporarily-settled estate of the district) to the highest bidders subject to annual assessment of revenue to be settled at the time of the sale.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it (and a regular conveyance will then be granted to the purchaser).

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

Bills introduced in the Bengal Legislative Council, Report of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 187T.L., dated Darjeeling, the 30th May, 1925.—His Excellency the Governor having been pleased to order, under rule 18 of the Bengal Legislative Council Rules, 1920, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information :—

THE BENGAL HIGHWAYS BILL, 1925.

A

BILL

to provide for the better maintenance and control of Government roads in Bengal.

Whereas it is expedient to provide for the regulation and safety of traffic on Government roads in Bengal, for the prevention of obstruction and encroachments, and of nuisances on or near such roads, for the preservation of such roads, and for the temporary closing of such roads for repairs or other works, or for public purposes;

It is hereby enacted as follows:—

Short title, extent and commencement.

1. (*1*) This Act may be called the Bengal Highways Act, 1925.

(*Clauses 2—4.*)

(*2*) It shall extend to the whole of Bengal.

(*3*) It shall come into force on such date as the Local Government, may, by notification in the *Calcutta Gazette*, direct.

Definition.

2. In this Act, unless there is anything repugnant in the subject or context,—

" Government road " means a road vested in, or under the control and administration of, the Public Works Department of the Local Government, and includes—

(*a*) the slope, berm, borrow-pits and side-drains of any such road;

(*b*) all lands and embankments vested in, or under the control and administration of, the said Public Works Department, and attached to a Government road;

(*c*) all bridges, culverts or causeways built on or across any Government road; and

(*d*) all fences and posts on any Government road or on any land attached to a Government road, and all road-side trees on such land.

Temporary closing of Government road.

3. The Local Government may, by notification in the *Calcutta Gazette* and by public notice, displayed in a conspicuous portion of the road, declare any Government road or part thereof to be closed temporarily for the purpose of repairing such road, or for the purpose of constructing any sewer, drain, culvert or bridge, or for any other public purpose: [Cf. Ben. Mun. Bill Cl. 222 and the proviso to Cl. 457 (*1*).]

Provided that the Local Government shall, before declaring any such road or part thereof to be closed, be bound to provide other reasonably sufficient means of access to holdings adjacent to such road or part, if no such means of access already exist.

Power to make rules.

4. (*1*) The Local Government may make rules— [Cf. Ben. Act III of 1884, s. 350 (*a*).]

(*i*) for the regulation and safety of traffic on Government roads;

(*ii*) for the prevention of obstruction and encroachments and of nuisances on or near such roads;

(*iii*) for the preservation of such roads; and

(*iv*) for the temporary closing of such roads for repairs or other works, or for public purposes.

(*2*) All rules made under this section shall be published in the *Calcutta Gazette* and, on such publication, shall have the same effect as if enacted in this Act

(Clause 5.)

Penalties.

5. In making any rule under this Act, the Local Government may direct that a breach thereof shall be punishable with a fine which may extend to fifty rupees, and when the breach is a continuing one, with a further fine not exceeding five rupees for every day after the date of the first conviction during which the offender is proved to have persisted in the offence. [Cf. Bom. Mun. Bill, cl. 488.]

STATEMENT OF OBJECTS AND REASONS.

The Bill is framed to meet the difficulty which now exists of controlling traffic on provincial roads in Bengal.

In the case of District Board roads the Local Self-Government Act provides for safeguarding District Board roads and their appurtenances and for diverting a road in case of necessity such as that mentioned in clause 3 of the proposed Bill.

Officers in charge of provincial roads have hitherto been hampered by want of legal authority in maintaining and carrying out work essential for the upkeep and improvement of roads in their charge and this Bill provides that their actions shall have the support of law.

Karachi—Direction Finding Wireless Station opened.

No. 244 (first publication).—

Position.—Lat. 24° 50′ 55″ N., Long. 67° 03′ 29″ E.

Details.—A Direction Finding Wireless Station has been opened at Karachi and is now available for giving bearings to ships.

For the present the service will be regarded as experimental and no charges will be raised against ships calling for bearings.

Commanders of vessels entering Karachi are requested to use this service as much as possible and to submit to the Divisional Engineer, Wireless Engineering Division, Karachi, a report monthly embodying the results obtained and their usefulness for navigational purposes.

The method of calling for bearings is as follows :—

The ship calls VWK (Karachi Radio Station) in the usual manner and then gives QTE.

VWK then replies giving QTE.

The ship then gives

$\overline{\text{QT}}$ VWK DE (the ships call repeated for 2 minutes).

VWK will then call the ship and give the bearing as observed on the Direction Finding.

It is pointed out that the bearings given are great circle bearings and therefore allowance should be made for half-convergency when converting them into Rhumb line bearings for laying off the ship's position on a chart.

Owing to inherent errors occurring in bearings obtained during sunrise and sunset periods the station will be closed from 0530 to 0830 and 1730 to 2030 I. S. T. daily.

2. Ships approaching Bombay may also make use of the Direction Finding at Karachi until the Bombay Direction Finding is ready.

Authority.—The Director of the Royal Indian Marine, Bombay, Squadron Order No. 283, dated the 18th May 1925.

CALCUTTA, *the 29th May 1925.*

A. D. STEWART, MAJOR, I.M.S., *Director of Public Health, Bengal (offg.).*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 3rd June 1925.

Summary.—Excepting heavy showers in parts of North and East Bengal, there was light rainfall accompanied by dry weather in the rest of the province. Dry weather has helped the standing crops on lowlands to recover from the evil effects of wet weather of past weeks. Preparatory tillage for the transplanted winter rice and sowing of paddy in nurseries are progressing briskly. Sowing of autumn crops still continues in some West Bengal districts. The average price of common rice for the province has risen by about 0·65 per cent. as compared with that of the previous week.

GOVERNMENT OF INDIA

HOME DEPARTMENT.

(Public.)

NOTIFICATION.

No. F. 453-24—I, dated Simla, the 13th June 1925.—In exercise of the powers conferred by rule 6 of the Devolution Rules, the Governor-General in Council, with the previous sanction of the Secretary of State in Council, is pleased to direct that the transfer of all the transferred subjects in the province of Bengal shall be suspended with effect from the 13th June 1925 to the 21st January 1927.

H. TONKINSON,
Secretary to the Government of India.

RESOLUTION.

No. F. 453-24—II, dated Simla, the 13th June 1925.—The decision that the transfer of all transferred subjects in the province of Bengal shall be suspended from the 13th June 1925 until the 21st January 1927 has been announced in the notification of the Government of India in the Home Department No. F. 453-24—I (Public), dated the 13th June 1925, and the Governor-General in Council takes this opportunity of stating the reasons which have led the Government of India and the Secretary of State in Council to this decision.

2. The present Bengal Legislative Council met for the first time on the 21st January 1924. On the 24th March 1924 the Council rejected the demand for the salaries of Ministers by 1 vote. A motion, which was equivalent to a vote of censure, had, however, been moved in the same Council on the 20th February 1924 and had been rejected. The Ministers accordingly did not consider the vote of the 24th March as a vote of censure, and they were prepared to continue in office without salary. His Excellency the Governor of Bengal also accepted the view that the decision of the Council on the 24th March did not necessarily represent its considered opinion, either in regard to the personnel of the existing Ministry or in regard to the question whether any Ministers should be appointed at all. It was therefore decided to resubmit the matter for the reconsideration of the Council at its next meeting, and meanwhile the Ministers continued in office. A supplementary demand for the salaries of Ministers was placed before the Council on the 26th August 1924 and was rejected by 68 votes to 66. The Ministers then resigned and His Excellency the Governor assumed charge of the administration of the transferred subjects under the Transferred Subjects (Temporary Administration) Rules.

3. On the 17th February 1925, the Council by a majority of 75 to 51 votes carried a resolution recommending that a provision be made for the salaries of Ministers in the budget for the year 1925-26. Nawab Bahadur Saiyid Nawab Ali Chaudhuri Khan Bahadur and Raja Manmatha Nath Ray Chaudhury were appointed to be Ministers on the 14th March 1925 and at the same time an official announcement was issued to the Press, of which the following is an extract:—

"In order that there may be no misunderstanding, it is perhaps desirable to explain in advance what view the Government will take of the action of the Council in certain eventualities—

(1) If the demand for Ministers' salaries is again rejected *in toto* the Government will regard this as an indication that the Council refuses to provide salaries for any Ministers. In that case His Excellency will apply to the Government of India to retransfer all the transferred subjects under Devolution Rule 6, and, if this is done, Bengal would thereafter be governed by a Governor in Council. Any motion to reduce the salaries of Ministers to less than Rs. 3,000 a month will similarly be regarded by Government as a refusal on the part of the Council to provide adequate salaries for any Ministers, and, if carried, will have a similar result.

(2) If a motion to reduce the amount payable to Ministers by any sum between Rs. 1,000 and Rs. 2,000 per month is carried this will be accepted by Government as the figure at which the Council desires to fix the remuneration of Ministers.

(3) If a motion to reduce the amount payable to Ministers by a nominal sum between one rupee and Rs. 100 is carried this will be regarded by Government as indicating a vote of censure on the Ministers who will then resign and others will be appointed in their place. The opinion of the Council on their successors can be expressed either by a nominal reduction of Rs. 100 in one of the demands for transferred subjects which has still to be voted or later when a supplementary demand is made in the next session for the nominal sum which has been reduced."

On the 23rd March 1925, the Council by a majority of 69 to 63 again rejected the demand for the salaries of Ministers, though during the discussion of the motion for the demand the Hon'ble Sir Hugh Stephenson made it clear that the total rejection of the demand would be interpreted as indicating that the Council did not desire to have any Ministers at all. The Ministers then resigned and on the 25th March His Excellency the Governor again resumed charge of the administration of the transferred subjects under the Temporary Administration Rules.

4. The present Bengal Council has therefore on three occasions decided to provide no salaries for Ministers, though the issue was very definitely put before it on the last occasion. It is clear that the administration of transferred subjects by the Governor under the Temporary Administration Rules cannot continue indefinitely, as such an arrangement is neither suitable nor intended as a permanent form of administration. In these circumstances the Government of India and the Secretary of State have no alternative but to accept the thrice expressed desire of the existing Legislative Council that there shall be no transferred subjects in Bengal. For this reason the suspension of transfer has been directed for the life-time of the present Council, *i.e.*, up to the 21st January 1927, which is three years from the date upon which the Council first met. Though the transfer has been suspended up to the 21st January 1927, this does not of course mean that the suspension of transfer may not be terminated on an earlier date should the existing Council indicate its desire to secure reconsideration of the position or should its term of office be brought to a close before that date.

HIGH COURT NOTICES.

CIVIL.

The 5th June 1925.

No. 1377G.—The following Addendum to the "Rules of the High Court, Calcutta, Appellate Side, 1922" is published for general information.

By order of the High Court,

H. C. STORK,
Registrar.

Insert the following as clause (*c*) to Rule 29 (*2*) in Chapter V, at page 26 :—

(*c*) Where analogous appeals have been presented in separate batches, each batch of such appeals presented by the same appellant or by the same Vakil representing different appellants shall be considered as a separate batch of analogous appeals and the cost of the preparation of the printed paper-book shall be deposited for each batch of such appeals separately calculated according to the provisions of clause (*b*) ; in the case of single appeals presented by different Vakils or appellants in person such costs shall be deposited as provided in clause (*a*) for each such separate appeal notwithstanding that such appeals may be analogous to others.

IN supersession of the Rules published in the *Gazette of India* on the 13th September 1924 the following Rules have been framed by the High Court under section 10 of the Letters Patent, 1865, and are added as Chapter IA of the Rules of the Original Side :—

1. Persons who are not entitled to be admitted as Advocates under the provision of Rule 1, Chapter I, may be admitted as Advocates of the High Court under the following Rules appearing in this Chapter.

2. From and after the 10th November 1924, and until the expiration of seven years therefrom, or such further period as the Court may determine, a Vakil or Attorney of this Court of not less than ten years' standing, on application by petition stating that he desires to be admitted as an Advocate of this Court and that his name is borne on the Roll of Vakils or Attorneys of this Court, as the case may be, and that his application, if any, for admission as an Advocate has or has not been refused by any other Court in India, may be admitted as an Advocate of this Court. Such application shall be supported by the certificate of one of the Registrars of this Court to the effect that the applicant's name is borne on the Roll of Vakils or Attorneys of this Court, as the case may be, and such certificate shall also state the date of his enrolment.

3. From and after the 1st of July 1925, and until the expiration of seven years therefrom or of such further period as the Court may determine, a Vakil of this Court of less than ten years' standing, on application by petition containing the statements mentioned in the last preceding Rule and supported by a certificate of the Registrar of this Court in its Appellate Jurisdiction, to the effect that his name is borne on the Roll of Vakils of this Court and mentioning the date of his enrolment, may be admitted as an Advocate of this Court, provided that he produces the certificates hereinafter mentioned, viz :—

(*a*) A certificate signed by the Secretary of the Board of Examiners, mentioned in Rule 15, that he has satisfactorily passed an examination in the following subjects, viz.—

(1) Commercial Law, including Negotiable Instruments, Sale of Goods, Affreightment, Insurance and Arbitration.

(2) Company and Insolvency Law, together with the Rules and procedure on the Original Side relating thereto.

(3) The Letters Patent (including any modifications thereof) and Rules of the High Court on the Original Side.

(4) The Principles of the Law and Procedure in the High Court as to Guardians and Wards, and Lunacy, and in the Testamentary and Intestate, and Matrimonial Jurisdictions.

(*b*) A certificate from a practising Advocate approved by the Court, as provided in Rule 14, stating that he has read for a period of 12 months in the said Advocate's Chambers in Calcutta.

4. From and after the 1st of July 1925, and until the expiration of seven years therefrom or such further period as the Court may determine, an Attorney of this Court of less than ten years' standing, on application by petition containing the statements mentioned in Rule 2 and supported by a certificate of the Registrar of this Court in its Original Jurisdiction, to the effect that his name is borne on the Roll of Attorneys of this Court and mentioning the date of his enrolment, may be admitted as an Advocate of this Court, provided he produces the certificates hereinafter mentioned, viz.—

(*a*) A certificate from a practising Advocate approved by the Court, as provided in Rule 14, stating that he has read for a period of 12 months in the said Advocate's Chambers in Calcutta.

(*b*) A certificate that he has passed under these Rules an examination in Commercial Law, including Negotiable Instruments, Sale of Goods, Affreightment, Insurance and Arbitration, signed by the Secretary of the Board of Examiners mentioned in Rule 15.

5. Any person who has obtained after examination a Bachelor's degree in Law of the University of Calcutta, Allahabad, Bombay, Dacca, Madras, Patna or the Punjab, or a corresponding degree of such other University in India or elsewhere as the Court may accept as equivalent, may, on application by petition verified by an affidavit and on proof of the University degree which he has obtained, be admitted as an Advocate on production of the following certificates :—

(*a*) Certificates, signed as stated in Rule 3, that he has passed an examination in the subjects mentioned in each of the following parts :—

PART I.

(1) Equity, including Trusts and Specific Relief.

(2) The Law of Contract.

(3) The Law of Tort.

PART II.

(1) The Law relating to Property, including the Transfer of Property Act, together with the Principles of English Law applicable thereto, the Elements of Practical Conveyancing, and the Law of Easements.

(2) The Law of Land Tenures, Land Revenue and Prescription, including the Regulations and the Bengal Tenancy Act.

(3) The Law of Succession, including the Indian Succession Act, the Hindu Wills Act, the Probate and Administration Act and the Succession Certificate Act.

PART III.

(1) Commercial Law, including Negotiable Instruments, Sale of Goods, Affreightment, Insurance and Arbitration.

(2) Company and Insolvency Law together with the Rules and procedure relating thereto on the Original Side and in the Subordinate Courts.

(3) Civil Procedure with special reference to Discovery, Pleadings and Limitation, and the Law of Evidence.

(4) The Letters Patent (including any modifications thereof) and Rules of the High Court on the Original and Appellate Sides; also the Law and procedure under the Indian Divorce Act (IV of 1869).

(*b*) A certificate from a practising Advocate, approved by the Court, as provided in Rule 14, stating that he has read for a period of twelve months in the said Advocate's Chambers in Calcutta after passing the examinations hereinbefore prescribed.

(*c*) Two satisfactory testimonials as to his good character :

Provided that an applicant who has obtained after examination the Master's or Doctor's degree in Law of any of the Indian Universities mentioned in this Rule, or a degree of any other University which the Court shall accept as equivalent to either of the said degrees, shall not be required to pass in Parts I and II.

A candidate may sit for Parts I and II abovementioned at the same examination or at different examinations. He shall not sit for Part III until he has passed in both Parts I and II. A candidate must pass in each of the papers of a part at one and the same examination before he shall be deemed to have passed in that part.

6. The Registrar shall submit the petition to be admitted as an Advocate with the other necessary documents prescribed by the Rules in this Chapter to the Chief Justice and Judges.

7. The Registrar shall enter in a book to be kept for the purpose the names in alphabetical order of such Advocates who may be approved by the Court as being entitled to take pupils in their Chambers.

8. No Advocate, without the leave of the Court, shall be entitled to take more than two pupils at one and the same time.

9. An Advocate taking a pupil under these Rules shall give notice of that fact to the Registrar in the following form, which shall also be signed by the pupil :—

In the High Court, etc.,

Ordinary Original Criminal Jurisdiction.

In the matter of A. B., a candidate for admission as an Advocate.

THE REGISTRAR, ORIGINAL SIDE.

SIR,

Please take notice that on the day of 192 , I admitted Mr. of as my pupil to read in my Chambers for a period of twelve months from the said date with a view to qualify himself for admission as an Advocate of this Court.

B. read in my Chambers for a period of twelve months from the day of 192 . During the same period he was diligently and faithfully working in my Chambers and was not engaged or concerned in any other profession, trade, business or employment.

I do hereby further certify that he is a fit and proper person to be admitted as an Advocate of this Court.

15. The Chief Justice may, from time to time, appoint a Committee of Control for the purpose of—

(*a*) supervising the examinations referred to in Rules 3 to 5,

(*b*) appointing a Board of Examiners for each examination, and

(*c*) dealing with all questions arising in connection with such examinations.

Not less than half the members of the Board of Examiners shall be Advocates of the Court.

The Committee of Control may, with the approval of the Court, from time to time, prescribe the limit of each of the subjects for examination under these Rules by reference to text-books or legislative enactments and statutes or leading cases.

16. Every person intending to appear at any of the said examinations shall give one calendar month's notice in writing to the Registrar, stating his intention and mentioning the part or parts he desires to be examined in, and if the notice be for Part III, shall state the date or dates he passed in Parts I and II. He shall, at the same time, pay to the Registrar the following fee: (1) for first appearance at any examination, Rs. 300; (2) for each subsequent appearance at any examination, Rs. 150; and the fees so paid shall be placed to the credit of a fund called "The Advocates' Examination Fee Fund".

17. Every person who shall have given notice of his intention to appear at any of the examinations mentioned in this Chapter, or to apply for admission as an Advocate, and who shall not have attended to be examined, or not have passed the examination, or not have been admitted, may renew the notice for examination or admission, from time to time as often as he shall think proper: Provided that every renewed notice shall be given in conformity with the Rules in this Chapter, unless the Court shall otherwise order.

18. All expenses that may be incurred on account of the examinations to be conducted under these Rules shall be defrayed by the Registrar out of the said Fee Fund. The scale of remuneration of the examiners shall be as follows:—

	Rs.
For setting a paper	100
For examining an answer paper	10

The Registrar shall be *ex officio* the Secretary to the Board of Examiners and the custodian of "The Advocates' Examination Fee Fund".

19. The examinations hereinbefore referred to shall be held once in every six months at such time and place as the Committee of Control may appoint. Notice of the time so fixed shall be given by the Registrar at least six weeks beforehand by affixing the same on the Registrar's Notice Board and forwarding copies thereof to the Secretaries of the Bar Library, the Vakils' Library and the Incorporated Law Society.

20. The Registrar shall reduce all notices of intention to appear at any of the examinations mentioned in this Chapter into an alphabetical table, under convenient heads, and shall, three weeks previous to the examination, affix the same on the Notice Board at the East Gate, and also on the Registrar's Notice Board to be exhibited daily, and shall forward copies thereof to the Committee of Control; Secretary, Bar Library; Secretary, Vakils' Library; and Secretary, Incorporated Law Society of Calcutta.

The Registrar shall inform each candidate who shall have given notice of his intention to appear at any of the said examinations of the days fixed for each examination.

21. There shall be a paper on each of the subjects mentioned in Rules 3 to 5, the number of questions in each paper shall be 10, and the aggregate number of marks in each subject shall be 200. To be entitled to pass, a candidate must obtain 62 per cent. of the total marks in each paper set at the examination.

22. Any candidate bringing into an examination room any book, document, or printed or written paper whatsoever, or communicating in any way with another candidate, or copying from another candidate in the examination room, or using any unfair means whatsoever, or assisting another candidate in so doing, will be liable to be summarily ejected from the examination room, and shall not, unless the Court shall otherwise order, be permitted to appear at the same examination or at any subsequent examination.

23. Nothing in these Rules shall be construed to entitle any person to be admitted as an Advocate if he has been guilty of any fraud, dishonesty, or other disgraceful conduct, or is of doubtful reputation, or is an undischarged insolvent, or has been convicted by any Criminal Court for any offence showing such moral turpitude as would, in the opinion of the Court, amount to disqualification.

24. From and after the date on which these Rules come into force, Advocates will take precedence on the Original Side and in the Court for hearing appeals for the Original Side according to the dates on which they were called to the Bar or were admitted originally as Vakils or Attorneys of the Court, provided that Barristers who have been admitted as Advocates before these Rules come into force shall take precedence according to the dates on which they were called to the Bar.

25. Subject to what is hereinbefore stated, Advocates admitted under these Rules shall be governed by the Rules of Chapter I of the Rules of the Court on the Original Side.

26. Persons admitted as Advocates under the Rules under this Chapter shall, in all respects, conform to the practice of, and shall be subject to, the same obligations and rules of professional etiquette as govern Advocates practising on the Original Side of the Court on the date on which these Rules come into force, so that no Advocate admitted under these Rules shall be entitled to act on either side of the High Court or in any Court subordinate thereto.

27. Every person, when admitted and enrolled as an Advocate of this Court, shall be entitled, on payment of the prescribed fee, to obtain a certificate of admission under the signature of the Registrar and the Seal of the Court.

28. An Advocate of this Court admitted under this Chapter may, on the payment of a fee of Rs. 5 in Court-fee stamps, obtain a certificate under the signature of the Registrar and the Seal of the Court that his name is borne on the Roll of Advocates of this Court.

29. An Advocate admitted under these Rules who desires to have his name struck off the said Roll of Advocates shall apply by petition containing the particulars and statements mentioned in Rule 10, Chapter I, so far as they may be applicable to the case, and shall be entitled to have his name removed from the said Roll of Advocates. A name once removed under this rule shall not be restored again to the said Roll of Advocates. The procedure laid down in Rules 9 to 13 inclusive of Chapter I shall be followed in the case of an application under this Rule.

DEPARTMENT OF COMMERCE.

NOTIFICATION.

SHIPPING.

Simla, the 30th May 1925.

No. 40-S. (3).—In exercise of the powers conferred by sub-section (*1*) of section 191 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), and in supersession of the notification of the Government of India in the Department of Commerce, No. 40-S., dated the 26th January 1924, the Governor General in Council is pleased to make the following rules regarding the carriage of petroleum in native passenger ships, the same having been previously published as required by sub-section (*4*) of the said section namely :—

1. No petroleum which is dangerous within the meaning of the Indian Petroleum Act, 1899 (VIII of 1899), shall be shipped on board any native passenger ship proceeding or departing from British India, and no other petroleum shall be carried on board such a ship except under the following special conditions, namely :—

A.—Where petroleum is carried as fuel in bulk for use of the ship—

It shall have a flash point of not less than 150° Fahrenheit by Abel's close test and shall be carried in cellular double bottoms under engine and boiler compartments, or under ordinary holds, or in peak tanks, deep tanks or bunkers of approved construction :

Provided that the oil fuel storage tanks and installations in connection therewith fully comply with the conditions described in the Instructions to Surveyors contained in the Board of Trade Circular No. 1647 (Oil Fuel Installation in Passenger Steamships), dated January 1924.

With each supply of oil taken on board a written guarantee must be supplied by the vendor, and signed by a responsible official in his employ, of the actual close test flash point, the type of instrument by which the test was made being in every case specified. These particulars shall be entered in the engine room log.

B.—Where petroleum is carried as cargo—

(*i*) The master, owner or agent shall give notice to the Chief Customs Officer, or such other officer as the Chief Customs Officer may nominate in this behalf, before permitting any petroleum to be shipped.

(*ii*) Each consignment of petroleum shall be covered by a declaration made and signed by the shipper in Form A (hereto annexed), if the petroleum has been imported into British India, and otherwise in Form B.

(*iii*) The petroleum shall be shipped either in tins enclosed in outer wooden cases or in hermetically sealed iron or steel drums: provided that petroleum which has a flash point not below 200° Fahrenheit may also be shipped in sound well coopered wooden casks of not more than 50 gallons capacity.

(*iv*) The nature of every consignment of such petroleum shall be marked on the outside of the package containing it.

(*v*) The petroleum shall be stored separate from all other cargo and as far as possible away from lights or fires, and none shall be stored in any hold adjoining an engine room or boiler, or in any compartment situated above the passenger spaces.

(*vi*) There shall be a water-tight bulkhead between the engine room and any hold in which petroleum is stored, and the sluicevalves of such bulkhead shall be shut down and padlocked.

(*vii*) Save where electric light is used, no petroleum shall be shipped or discharged except between sunrise and sunset; no lights other than electric lights shall be lit in a hold in which petroleum is stored; and no smoking shall be permitted in or near any such hold.

(*viii*) No person shall otherwise than along with, or with the authority of an officer of the ship, be permitted to visit a hold in which petroleum is stored.

(*ix*) No more passengers shall be carried than can with safety be accommodated in the ship's boats in case of accident, unless the vessel is a coasting one proceeding on a short voyage and there are provided life-belts sufficient for such passengers as cannot be accommodated in the boats.

(*x*) At any port in which a ship carrying such petroleum is for the time being, the Chief Custom Officer or such other officer as the Chief Customs Officer may nominate in this behalf, may take and test any consignment of such petroleum or any single case or drum thereof.

(*xi*) If any petroleum tested under clause (*x*) is found to be dangerous petroleum defined as aforesaid, the whole consignment of which the petroleum tested formed a part shall be liable to confiscation.

(*xii*) The officer authorised to grant a certificate in respect of a native passenger ship under section 157 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), shall not grant the same unless the master or owner of such ship produces either a certificate declaring that no petroleum is to be carried, or if petroleum is to be carried a certificate containing the consent of the Chief Customs Officer or such other officer as the Chief Customs Officer may nominate in this behalf.

2. Whoever commits a breach of any of these rules shall be punishable with fine which may extend to two hundred rupees, and, when the breach is a continuing one, with a further fine which may extend to twenty rupees for every day after the first during which the breach continues.

FORM A.

We do hereby declare that the cases and drums marked as follows—presented for shipment on the SS. contain imported petroleum and that the petroleum is contained in the original packages in which it was imported into this country.

A competitive examination for admission to the Indian Civil Service will be held under the subjoined rules in the Senate House at Allahabad commencing on the 4th January 1926. Candidates accepted for the examination, that is, candidates who have received certificates of admission under Rule 13, should present themselves not later than 9-30 A.M.; this last intimation is given in case a communication which the Civil Service Commissioners will send showing the Time Table of the written examination and the time of the candidate's *viva voce* test should fail to reach the candidate.

The number of persons to be selected at this examination will be announced hereafter.

No person will be considered from whom the Chief Secretary of the appropriate province has not received, on or before the 1st August 1925, an application on the prescribed form, a copy of which is sent herewith. No allegation that an application form or a letter respecting such form has been lost or delayed in the post will be considered unless the person making such allegation produces a Post Office Certificate of Posting. Candidates who delay their applications until a late date will do so at their own risk.

Regulations for Competitive Examinations to be held in India.

The following Regulations, made by the Secretary of State for India in Council, are liable to alteration from year to year.

(1) A competitive examination for admission to the Indian Civil Service shall be held annually in India in the months of January and February or at such other time as the Governor General in Council may direct.

(2) The maximum number of candidates to be admitted to the examination may at the discretion of the Governor General in Council be limited to 200. If the number of applicants exceeds 200 and a limitation is decided upon it will be effected by Quota Committees in accordance with the following regulations.

(3) Of the candidates to be admitted if limitation is decided upon the number to be drawn from each of the regions specified in the annexed table shall not exceed the number shown against it; such number is hereinafter referred to as "the provincial quota."

Assam	... 5	The Madras Presidency and Coorg	33
The Bengal Presidency	... 33	The Punjab, the North-West Frontier Province and Delhi	25
Bihar and Orissa ...	... 22	The United Provinces and Ajmer-Merwara ...	30
The Bombay Presidency	... 25		
Burma	... 15		
The Central Provinces	... 12		

(4) If limitation is decided upon and in any region of Rule 3 the number of applicants exceeds the provincial quota, the Local Government of the Governor's Province which coincides with or is included in that region shall appoint a committee to be called the Quota Committee, the majority of the members of which shall be non-officials. The Quota Committee shall select the provincial quota for its region from among such of the persons applying for admission to the examination from that region as possess the qualifications hereinafter prescribed. The selection or rejection of an applicant by the Quota

Committee shall be final. Provided nevertheless that the Local Government may remove from the quota a candidate who is reported by a Medical Board to be physically unfit for appointment in the Indian Civil Service.

(5) In a case where the region for which the Local Government of a Governor's Province is required to set up a Quota Committee includes territory other than the Governor's Province the Local Government shall be responsible for the due representation of that other territory on the Quota Committee.

(6) A person desiring to be admitted to the examination shall apply, before such date as the Governor General in Council may prescribe, in the region of Rule 3 in which his parents reside at the time of the application or have previously resided for a period of not less than three years, or in which he has himself resided, otherwise than as a student at a university only, for a like period. His application must be made to the Chief Secretary of the Governor's Province which coincides with or is included in that region;

Provided that no candidate shall make more than one application in any year;

Provided further that persons resident in a State in India shall apply through their Durbars to the Chief Secretary of the province in which they wish to serve or of the province included in the region in which they wish to serve, and that for the purposes of Rule 3, if limitation of the number of candidates is decided upon, such persons shall be considered by the appropriate Quota Committee and if chosen by that Committee shall constitute a part of the provincial quota for that region.

(7) Application shall be made at such time and in such manner as the Governor General in Council may prescribe.

(8)* A candidate must be either a British subject or a ruler or subject of a State in India in respect of whom the Governor General in Council has made a declaration under section 96A of the Government of India Act. If the candidate (being a British subject) or his father or his mother was not born within His Majesty's Dominions and allegiance, the father must, at the time of the candidate's birth, have been a British subject or the subject of a State in India; and if alive, must be, or if dead, must have continued to be until his death, a British subject or a subject of such State.

(9) A candidate must have attained the age of 21 and must not have attained the age of 23 on the first day of January in the year in which the examination is held.

(10) A candidate must be free from disease, constitutional affection, or bodily infirmity unfitting him, or likely to unfit him, for the Indian Civil Service.

(11) A candidate shall satisfy the Civil Service Commissioners that his character is such as to qualify him for employment in the Indian Civil Service.

(12)* A candidate must hold a degree of a university incorporated by law in British India or of the Mysore University, or the senior diploma of the Mayo College, Ajmer.

(13) No candidate shall be admitted to the examination unless he holds a certificate of having been accepted for admission, given by the Quota Committee in a region in which a Quota Committee has been set up and given by the Local Government in any other region.

(14) Any attempt on the part of a candidate to enlist support for his application through persons of influence will disqualify him for appointment. Spontaneous recommendations from persons who are not themselves acquainted with the candidate's work at school or at the University, or otherwise, will be disregarded.

(15) A candidate will pay a fee of Rs. 5 with his application form, and a candidate chosen for admission to the examination will pay a further fee of Rs. 100.

(16) The examination will include the following subjects. Each subject will carry the number of marks shown against it.

Section A.—To be taken by all candidates:—

1.	Essay ...	...	150	4.	Every day Science	...	100
2.	English ...	...	150	5.	Vernacular language	...	200
3.	Present Day ...	...	100	6.	*Viva voce* ...	...	200

Section B.—Candidates are allowed to take up subjects in this section up to a total of 800 marks:—

Languages with associated civilizations.

42.	Lower geology ...	200	54.	Agriculture ...	400
43.	Higher geology ...	200			

(17) The civilization associated with a language can only be taken by candidates who also offer the language itself.

(18) In subject 5, vernacular language, a candidate may offer any one of the following languages:—Assamese, Bengali, Burmese, Gujarati, Hindi, Kanarese, Malayalam, Marathi, Oriya, Punjabi, Sindhi, Tamil, Telugu, Urdu.

(19) A candidate for any of the subjects numbered 36 to 47 must have undergone laboratory training in an institution authorised to prepare candidates in that subject for a University degree and must send in a voucher to that effect from the head of the institution, two years' laboratory training being required for a science on the higher grade and one year's training for a science on the lower grade. For candidature for Geography or Experimental Psychology or Engineering or Agriculture (subjects 48, 50, 53, 54)a certificate of one year's training in an institution authorised to prepare candidates in that subject for a University degree is required.

(20) As Vernacular Literature a candidate may offer the literature of any one of the following languages:—Bengali, Burmese, Gujarati, Hindi, Marathi, Tamil, Telugu, Urdu.

(21) From the marks assigned to candidates in each subject, such deduction will be made as the Civil Service Commissioners may consider necessary in order to secure that no credit is allowed for merely superficial knowledge.

(22) If a candidate's handwriting is not easily legible, a deduction will be made on this account from the total marks otherwise accruing to him.

(23) A list of the competitors shall be made out in order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor, and in that order so many competitors, up to the determined number of appointments, as are found by the Civil Service Commissioners to be qualified by examination, shall be designated to be selected candidates for the Indian Civil Service, provided that the Governor General of India in Council is satisfied that they are duly qualified in other respects. Should any selected candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled or not. In the former case the candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected candidate.

(24) Selected candidates will be on probation for two years in the United Kingdom.

INDIA OFFICE,

London, S.W. 1.

N.B.—The Secretary of State for India in Council proposes to amend regulation 8 by inserting the words "of Indian domicile" after the words "British subject" where they first occur: and also to alter regulation 12 to read as follows:—

"A candidate must hold a degree of a University approved by the Governor General in Council or the senior diploma of the Mayo College, Ajmer."

The list of approved Universities will be published shortly and will include all Universities incorporated by law in British India, the Mysore University and the Osmania University, Hyderabad

Examination of selected candidates for the Indian Civil Service.

Regulations made under section 97 of the Government of India Act for the probation in the United Kingdom and the further examination of Selected Candidates for the Indian Civil Service.

*** The following regulations made by the Secretary of State for India in Council are liable to alteration from year to year :—

(1) Candidates selected at the Open Competition held in London will be required to remain in the United Kingdom on probation for one or two years, as may be decided by the Secretary of State for India in Council.

(2) Candidates selected at the Open Competition held in India and candidates selected in India otherwise than by competitive examination will be required to proceed to the United Kingdom on probation for a period of two years.

ONE-YEAR PROBATIONERS.

(3) One-year probationers will, at the end of the year of probation, undergo an examination called the Final Examination. The subjects and the marks allotted to them are as follows :—

Compulsory Subjects.

1.	Indian Penal Code	200	5.	The Principal vernacular language or the substituted subject	600
2.	Code of Criminal Procedure	200			
3.	The Indian Evidence Act ...	200			
4.	Indian History	400	6.	Riding	200

Optional Subjects, one only to be taken.

7.	Hindu and Mohammedan Law ...	400	8.	A classical language selected from Sanskrit, Arabic, Persian, Pali	400

TWO-YEAR PROBATIONERS.

(4) Two-year probationers will, during their period of probation, undergo two examinations—the Intermediate Examination at the end of the first year and the Final Examination at the end of the second year.

(5) The subjects of the Intermediate Examination and the marks allotted to them are as follows. All the subjects are compulsory.

		Marks.			Marks.
1.	The principal vernacular language or the substituted subject	400	4.	Law of Evidence and Criminal Law	200
2.	Phonetics	200	5.	Indian History	200
3.	Jurisprudence	200	6.	Notes of Cases	200
			7.	Economics	200

(6) The subjects of the Final Examination and the marks allotted to them are as follows :—

Compulsory Subjects.

		Marks.			Marks.
1.	The principal vernacular language or the substituted subject	600	4.	The Indian Evidence Act ...	200
2.	Indian Penal Code ...	200	5.	Notes of Cases	400
3.	Code of Criminal Procedure	200	6.	Indian History	400
			7.	Economics	400
			8.	Riding	200

Optional Subjects, one only to be taken.

		Marks.
9.	Hindu and Mohammedan Law	400
10.	A classical language selected from Sanskrit, Arabic, Persian, Pali ...	400

ONE-YEAR AND TWO-YEAR PROBATIONERS.

(7) The principal vernaculars prescribed for the various provinces are shown in the following table :—

Province.	*Vernacular.*	*Province.*	*Vernacular.*
Madras ...	Tamil or Telugu.	Burma ...	Burmese.
Bombay ...	Marathi.	Bihar and Orissa ...	Hindi.
Bengal ...	Bengali.	Central Provinces	Hindi.
United Provinces	Urdu.	Assam ...	Bengali.
Punjab ...	Urdu.		

(8) An Indian assigned to Madras whose mother tongue is one of the principal vernaculars of the province must offer the other for examination. An Indian assigned elsewhere whose mother tongue is the principal vernacular language of his province must substitute in place of the principal vernacular language the following subject or subjects :—

One-year probationers—

British History.

Two-year probationers—

British History at the Intermediate Examination, and European History at the Final Examination.

(9) A candidate whose mother tongue is Hindi or Urdu may not offer either of these languages as the principal vernacular language.

(10) Candidates who at the Final Examination in riding satisfy the Commissioners that they are sufficiently at home in the saddle for the efficient performance of any duties required of members of the Indian Civil Service will be awarded marks ranging between 101 and 200, according to the degree of proficiency displayed.

Candidates who fall short of this adequate proficiency but show such minimum proficiency as is evidence that with a moderate amount of practice they can attain full proficiency, will receive marks ranging between 1 and 100; they will be allowed to proceed to India and will on their arrival there be subjected to such further tests in riding as may be prescribed by their Local Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government.

A candidate who fails at the end of the period of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding will be liable to have his name removed from the list of selected candidates.

Selected candidates will also be examined in riding at such time or times as the Commissioners may appoint during the course of the probationary period.

(11) Such deductions as the Civil Service Commissioners may consider necessary will be made from the marks assigned to candidates at the Intermediate and Final Examinations in order to secure that no credit is allowed for merely superficial knowledge.

(12) The Civil Service Commissioners will prepare lists of the candidates in order of merit; the order for the one-year probationers being based on the sum of the marks obtained by the candidates at the Open Competitive and Final Examinations, the order for the two-year probationers being based on the sum of the marks obtained by the candidates at the Intermediate and Final Examinations.

(13) The slected candidates whose performance in the compulsory subjects of the Final Examination is such as to satisfy the Civil Service Commissioners, and who have also satisfied the Commissioners of their eligibility in respect of nationality, age, health, character, and conduct during the period of probation, shall be certified by the Commissioners to be entitled to be appointed to the Indian Civil Service, provided that they shall comply with the regulations in force at the time, for that Service.

(14) If any candidate is prevented by sickness or any other adequate cause from attending the Final Examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination. A selected candidate absent for such adequate cause from the Intermediate Examination may, under similar conditions, be allowed to appear at the Intermediate Examination a year later or at a special examination, or may be excused the Intermediate Examination and allowed to appear for the Final Examination in regular course.

Any candidate who at the Intermediate Examination shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of selected candidates.

ANNOUNCEMENTS

made by the Civil Service Commissioners with the authority of the Secretary of State for India in Council.

(i) *Selected candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.*

(ii) *An allowance of £300 a year, or, in the case of Selected Candidates possessing an Indian domicile, an allowance of £350* a year will be given to any candidate who passes his probation at one of the Universities or other Institutions that have been approved for the purpose by the Secretary of State for India in Council.*

In the case of Selected Candidates on probation for one year the allowance will be payable in four equal instalments on the following dates respectively: December 24th after his selection, March 25th, June 25th and after signature of Covenant on appointment to the Service.

In the case of Selected Candidates on probation for two years the allowance will be payable in eight equal instalments, the first on the December 24th after selection, the second to the Seventh on the six following quarter days and the eighth after signature of Covenant on appointment to the Service.

The payment of the various instalments of the allowance except the final instalment, and, in the case of the two-year probationers, the instalment payable at the end of the first year of probation, will be conditional on the receipt by the Secretary of State through the Civil Service Commissioners of a certificate that the candidate has fulfilled up to date the requirements of the authorities and shown satisfactory conduct at the approved Institution.

If an Indian Government Scholar becomes a selected candidate for the Indian Civil Service, his scholarship stipend shall cease to be paid with effect from the 1st October of the year in which he becomes a selected candidate He may, however, provided he has executed the agreement referred to in (iv) *below, be granted on, or at any time after, the 1st October, an advance on account of the instalment of the allowance payable on the 24th December.*

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

N.B.—The Secretary of State for India gives notice that the amount of the allowances will be reconsidered in 1925, with a view to a possible reduction with effect from the instalment payable in December, 1926.

(iii) *A First Class passage to India will be engaged for Selected Candidates with a view to their proceeding to India during the November following their Final Examination.*

(iv) *Each Candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety jointly and severally to refund all moneys he may have received from the Secretary of State for India in the event of—*

(1) *his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Indian Civil Service, or*

(2) *his subsequent failure to execute the usual Covenant, and to proceed to India as and when he shall be directed by the Secretary of State for India.*

(v) *All candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force they may be required to make for the pensions of their families. The stamps payable on these covenants amount to £1.*

(vi) *The seniority in the Indian Civil Service will be determined by the results of the examinations taken during the course of probation.*

(vii) *Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the candidate.*

(viii) *"Overseas pay" will not be admissible to Indian members of the Indian Civil Service selected at Open Competitive Examinations held in London in 1925 and subsequent years.*

Civil Service Commission,
January, 1925.

* The attention of candidates selected at examinations held in London is, however, directed to paragraph (viii)

Indian Civil Service Competitive Examination to be held in India in January 1926.

Syllabus of the examination in which the Civil Service Commissioners give an indication of the lines on which the subjects will be treated.

1. *Essay.*—An essay to be written in English on one of several specified subjects.

2. *English.*—A paper of questions to test the understanding of English and the workmanlike use of words.

3. *Present Day.*—Questions on contemporary subjects, social, economic and constitutional, mainly though not exclusively concerned with India. A liberal choice of questions will be given. Effective and skilful exposition will be rewarded.

4. *Everyday Science.*—In this subject such knowledge will be expected as a candidate will have who has studied science intelligently at school and has since then kept his eyes open. A liberal choice of questions will be given.

5. *Vernacular Language.*—The test will include translation from the vernacular, set composition in which an English passage is given to be put into the vernacular and free composition in which the candidate writes in the vernacular in his own words on a prescribed subject.

6. *Viva Voce.*—The examination will be in matters of general interest, not in matters of academic interest; it is intended to test the candidate's alertness, intelligence and general outlook.

LANGUAGES WITH ASSOCIATED CIVILIZATIONS.—Subjects 7-14. In the questions on the civilization, history and literature will, as far as possible, be brought into close relation. The questions on literature will require first-hand knowledge of the authors; and the authors dealt with will be those which candidates ought to have read. Passages of literature may be set for comment on matters of social, political, legal, or other historical importance.

7. *Arabic Language.*—Translation, free composition and set composition in the classical language.

8. *Arabic Civilization.*—The main stress in both history and literature will be on the period from the middle of the 6th century A. D. to the middle of the 13th Century A. D.

9. *Persian Language.*—Translation, free composition and set composition in the classical language.

10. *Persian Civilization.*—The main stress in both history and literature will be laid on the period 1000 A. D. to 1500 A. D. Candidates will be expected to have a general knowledge of Persia before 1000 A. D. and from 1500 A. D. to the present time.

11. *Sanskrit Language.*—Translation, set composition, free composition, questions on Vedic grammar relating to grammatical forms occurring in the passages set for translation or to general grammatical questions suggested by them. Both Vedic and Classical Sanskrit passages will be set for translation; composition will be required in Classical Sanskrit alone. A knowledge of the Prakrit used in plays will be expected.

12. *Sanskrit Civilization.*—Will include the history of the civilization and thought of India from the Vedic period to 1200 A. D.

13. *Pali Language.*—Translation, free composition, set composition.

14. *Pali Civilization.*—Will include the history of Buddhistic civilization in India from 600 B. C. to 100 A. D.

ENGLISH LITERATRUE.—Subjects 15-18. Candidates for any period should be prepared to show some first-hand knowledge of some of the works of the authors named below for the period and of their place in the history of their country. Questions may also be asked about other writers. Questions will not be set on the history of the language—

PERIOD 1.—1580-1680. Spenser, Shakespear, Bacon, Milton, Hobbes.

PERIOD 2.—1680-1744. Dryden, Bunyan, Swift, Addison, Defoe, Pope.

PERIOD 3.—1744-1832. Fielding, Johnson, Goldsmith, Burke, Sheridan, Scott, Wordsworth, Byron, Lamb.

PERIOD 4.—1832-1914. Macaulay, Tennyson, Dickens, Thackeray, Carlyle, Ruskin, Thomas Hardy, H. G. Wells.

19. *Vernacular Literature.*—The questions will be directed in the main to test a first-hand knowledge of the best known works in the vernacular, but questions on works of lesser importance will not be excluded. Candidates should have such knowledge of history as is necessary to understand the literature in its relation to the activities of the people.

HISTORY.—Subjects 20-24. Candidates should know something of the principles and the facts of geography in relation to history. They must be prepared to draw sketch maps.

20. *Indian History.*—Period 1. Hindu India from the first Aryan immigration to the end of the 12th century; history and culture together with the history of Buddhism outside of India.

21. *Indian History.*—Period 2. Muhammadan India, from the beginning of the 11th century to 1748 (death of the Mogul Muhammad Shah); together with the contemporaneous history of the Moslem powers outside of India—the Saracens, the Turks, etc.

22. *Indian History.*—Period 3. India during the British period, from 1600 to the present day; together with the contemporaneous history of the British Empire. [Although a fixed date is given for the beginning of the period, candidates will be expected to know in general outline how the initial position was reached.]

23. *European History.*—The limits of time are 1600 and 1914. Although a fixed date is given for the beginning of the period candidates will be expected to know in general outline how the initial position was reached. The history of countries closely associated with Europe will be included so far as it influences British history, especially in relation to India.

24. *British History.*—The limits of time are 1400 and 1914. British history will be taken as a whole; politics, economics, and constitution will be considered as mutually affecting each other and all together as the outcome of the common life of the nation. Candidates will be expected to know so much of European history as will make the external action of this country fully intelligible and will explain those movements in Britain which had their beginnings elsewhere, *e.g.*, the Renaissance, the Reformation and the reactions in this country of the French Revolution. From 1750 onwards the outstanding incidents and movements in the history of British possessions will assume more importance.

25. *Economics.*—General Economics, including industrial history with special reference to India. The subject will be treated as a whole and candidates should be prepared to illustrate the theory by the facts and to analyse the facts by the help of the theory. The history of economic thought will be included.

26. *Politics.*—This subject will include political theory and political organisation.

Candidates will be expected to show a knowledge of political theory and its history, political theory being understood to mean not only the theory of legislation, but also the general history of the State in connection with kindred studies such as Jurisprudence, Public International Law and Economics. Questions involving illustrations from Indian history may be set.

Political organisation will include Constitutional Forms (Representative Government, Federalism, etc.) and Public Administration, central and local. The history of institutions is not included, but candidates will be expected to know the earlier stages from which existing institutions have directly developed, and in this section also illustration from Indian history may be expected.

27. *Law.*—Constitutional law, jurisprudence, contracts, torts, Indian Evidence Act, Indian Penal Code.

30. *Logic.*—The subject will be interpreted in a wide sense. Epistemology in its bearing on logical problems will be included, together with formal logic and scientific method. Questions may be set on mathematical logic, *i.e.*, on the logic of mathematics, symbolic logic, and the logic of probability; and also on the history of logic. A considerable choice of questions will be allowed.

MATHEMATICS.—Subjects 32-33. The examination will be designed to test understanding of the subject and ability to apply it rather than ability to reproduce proofs of propositions. No great skill in manipulation will be expected.

Questions involving the use of mathematical instruments may be set at both stages.

32. *Lower Mathematics.*—Logarithms, numerical equations; graphs; approximation; infinite series; complex numbers; solution of triangles.

Geometry in two and three dimensions according to the method of Euclid. Analytical geometry in two dimensions (method of Descartes). The construction of plans, elevations and sections of solid bodies (method of Monge). The method of vectors, including scalar and vector products with applications to the other parts of Lower Mathematics.

Differential co-efficients; maxima and minima; integrals; the application of the infinitesimal calculus to curves.

Projectiles; harmonic motion; momentum; energy; power. Equilibrium of rigid bodies in two dimensions; link polygons; virtual work. Simple machines, *e.g.*, tackle, cranes, engine governors, brakes. Fluid pressure; expansion of a perfect gas; air-pump.

33. *Higher Mathematics.*—Lower Mathematics together with :—

Uniform covergence; infinite products; exponential and trigonometric functions of a complex variable.

The elements of the geometry of surfaces.

Taylor's series; partial differentiation; areas and volumes by integration; moments of inertia; the treatment of differential equations occurring in elementary mechanics.

Centrodes; simple cases of linked mechanisms. Equilibrium of forces in three dimensions; loading of beams; elementary treatment of potential. The motion of rigid bodies in two dimensions. Stability of floatation.

34. *Astronomy.*—Celestial co-ordinates. Astronomical instruments descriptively treated; method of using them and of determining their principal errors. Orbit of the earth. The Ecliptic. Time. Latitude and Longitude. Motion of the moon, simpler calculations, eclipses. Parallax. Refraction. Abberation. Precession and nutation.

Stellar maps and catalogues; the nautical almanac; the principal constillation. Descriptive discussion of planets, comets, double stars, nebulas. The simpler processes of computation; reduction of observations and of measurements made on photographic plates.

25. *Statistics.*—(1) Elementary theory of statistics, not depending mainly on the theory of probability nor requiring a knowledge of the calculus—frequency distributions, averages, percentiles, and simple methods of measuring dispersion, graphic methods; elementary treatment of qualitative data, *e.g.*, investigation of association by comparison of ratios; the practice of the simplest graphic and algebric methods of interpolation.

(2) Practical methods used in the analysis and interpretation of statistics of prices, wages and incomes, trade transport, production and consumption, education, etc., the more elementary methods of dealing with population and vital statistics; miscellaneous methods used in handling statistics of experiments or observations.

(3) Elements of modern mathematical theory of statistics; frequency curves and the mathematical representation of groups generally; accuracy of sampling as affecting averages, percentages; the standard deviation; significance of observed differences between averages of groups, etc.; the theory of correlation for two variables.

A considerable choice of questions will be given, especially as to paragraph 2, and it will be possible for a candidate without advanced mathematical knowledge to obtain full marks by answering questions under paragraphs 1 and 2.

NATURAL SCIENCES.—Subjects 36-47. The standard of the higher division of a science will be that which is required in the main subject for an honours degree at the universities. The standard for the lower division of a science will be that required in a subject subsidiary to the main subject whether required at the final degree examination or at a preceding examination.

40, 41. *Lower and Higher Botany.*—Vegetable Physiology will be included in each division.

42, 43. *Lower and Higher Geology.*—Mineralogy will be included in each division.

48. *Geography.*—Not excluding topics which concern geography jointly with other subjects such as economics, history, physics, botany and geology. There will be practical test which will necessitate a knowledge of cartographical methods and notations, and for this test drawing instruments may be required.

51. *Physical Anthropology.*—The subject includes prehistoric archæology and technology. Candidates will be expected to have such knowledge as may be acquired by laboratory and museum work, consisting mainly in the handling and study of specimens and exhibits. The subject will be treated with special but not exclusive, reference to peoples of rude culture, including prehistoric civilization.

52. *Social Anthropology.*—Candidates will not be expected to have an extensive experience of laboratory and museum work. The subject will be treated with special, but not exclusive, reference to peoples of rude culture, including prehistoric civilization.

53. *Engineering.*—Strength of materials; theory of structures; mechanism and dynamics of machines; heat and thermodynamics; surveying; hydraulics including hydraulic machines; electricity and magnetism.

The subject will be treated in a general manner and the questions will be confined to the more elementary parts of the subject. The candidate will be expected to be familiar with graphical methods and to have some skill in mechanical drawing.

54. *Agriculture.*—The subject will be treated in relation to Indian conditions. Agricultural chemistry, agricultural botany, and agricultural zoology will be included.

NOTES.

NOTE 1.—From the marks assigned to candidates in each subject such deduction will be made as the Civil Service Commissioners may consider necessary in order to secure that no credit is allowed for merely superficial knowledge.

NOTE 2.—In view of the importance of legible handwriting in the public service, deductions which may be of considerable amount will be made from the marks of candidates whose handwriting is not easily legible

NOTE 3.—In valuing the work of the candidates the Civil Service Commissioners will give credit for good English in all the 54 subjects of the examination, and not only in subjects 1 and 2 which are specially devoted to the language. Among the qualities of good English may be mentioned orderly, effective and exact expression, combined with due economy of words.

NOTE 4.—Pamphlets containing the question papers used at examinations held in Allahabad have been published by His Majesty's Stationery Office, Imperial House, Kingsway, London, W C.-2, and may be purchased either from that Office or in India that of the examination of 1922 from Messrs. NOTES.

Nationality (Rule 8).—If the candidate is a British subject* and he and both parents were born within the British Empire he is eligible as to nationality.

If the candidate is a British subject but he or his father or mother was born outside the British Empire he is eligible provided his father has not since the birth of the candidate owed allegiance except to the British Empire or an Indian State. Whether the father's allegiance has changed between the British Empire and an Indian State is immaterial. Whether the candidate is the subject of an Indian State as well as of the British Empire is immaterial.

If the candidate is not eligible under the above paragraphs and he is the ruler or subject of an Indian State a declaration under section 96-A of the Government of India Act is required to make him eligible. Whether he is a British subject as well as the subject of an Indian State is immaterial.

A candidate for whom a declaration under section 96-A is necessary must take early steps in order that the declaration may be in the hands of the Civil Service Commissioners before they issue the communication directing candidates where and when to attend for examination.

Age (Rule 9).—A candidate must send in with this form a certificate from his University showing his date of birth as recorded on entering the University. A Matriculation certificate will be accepted if it contains the date of birth. The certificate will be retained by the Civil Service Commissioners and not returned.

Medical Examination (Rule 10).—A candidate's medical examination will take place as soon as possible after he has been found otherwise acceptable for admission to the examination. A candidate summoned for interview by a Quota Committee or a Local Government should ask at the interview if he is required to attend for medical examination before returning home.

Character (Rule 11).—A candidate must send in with this form copies of three certificates (and not more) of good private character, one from his University or College and two from responsible persons unconnected with his University or College. Copies only are to be supplied at this stage; they will be retained by the Civil Service Commissioners and not returned. Successful candidates will be required to produce the originals.

University Degree (Rule 12).—A copy of the candidate's degree certificate is to be sent in with this form. Successful candidates will be required to produce the originals.

Fees (Rule 15).—A fee of five rupees is to be paid with this form. On acceptance for admission to the examination a candidate will pay a further fee of 100 rupees and will then receive a certificate entitling him to admission to the examination.

Training Voucher (Rule 19).—Candidates who offer any of the subjects numbered 36 to 48, 50, 53, 54 must send in with this form the voucher required by rule 19. The voucher must state that the institution in which the work has been done is authorised to prepare candidates in that subject for a degree.

* The meaning of British subject is made clear by the following extract from the British Nationality and Status of Aliens Act, 1914, as amended by the Acts of 1918 and 1922 :—

Section 1—Sub-section (*1*) —The following persons shall be deemed to be natural-born British subjects, namely :—

(*a*) Any person born within His Majesty's dominions and allegiance ; and

(*b*) Any person born out of His Majesty's dominions whose father was, at the time of that person's birth, a British subject, and who fulfils any of the following conditions that is to say, if either—(*i*) his father was born within His Majesty's allegiance ; or (*ii*) his father was a person to whom a certificate of naturalization had been granted ; or (*iii*) his father had become a British subject by reason of any annexation of territory ; or (*iv*) his father was at the time of that person's birth in the service of the Crown ; or (*v*) his birth was registered at a British consulate within one year or in special circumstances, with the consent of the Secretary of State, two years after its occurrence, or in the case of a person born on or after the first day of January, nineteen hundred and fifteen, who would have been a British subject if born before that date, within twelve months after the first day of August, nineteen hundred and twenty-two ; and

(*c*) Any person born on board a British ship whether in foreign territorial waters or not

Provided that the child of a British subject, whether that child was born before or after the passing of this Act, shall be deemed to have been born within His Majesty's allegiance if born in a place where by treaty, capitulation, grant, usage, sufferance, or other lawful means, His Majesty exercises jurisdiction over British subjects.

Provided also that any person whose British nationality is conditional upon registration at a British consulate shall cease to be a British subject unless within one year after he attains the age of twenty-one, or within such extended period as may be authorised in special cases by regulations made under this Act—(*i*) he asserts his British nationality by a declaration of retention of British nationality, registered in such manner as may be prescribed by regulations made under this Act ; and (*ii*) if he is a subject or citizen of a foreign country under the law of which he can, at the time of asserting his British nationality, divest himself of the nationality of that foreign country by making a declaration of alienage or otherwise, he divests himself of such nationality accordingly.

Sub-section (*2*) —A person born on board a foreign ship shall not be deemed to be a British subject by reason only that the ship was in British territorial waters at the time of his birth.

DEPARTMENT OF COMMERCE.

RESOLUTION.

TARIFFS.

Simla, the 6th June 1925.

No. 5-T. (*2*).—The Government of India have received and considered the Report of the Tariff Board called for in Resolution No. 38-T., dated the 10th April 1924, of the Commerce Department on the application for protection received from the Magnesium Chloride Industry. They accept the finding of the Board that the applicants have not made good their claim for protection.

2. The report was made available for sale to the general public on Thursday, the 4th June 1925.

ORDER.—Ordered that a copy of the above resolution be communicated to all Local Governments and Administrations, all Departments of the Government of India, the Director-General of Commercial Intelligence, the Indian Trade Commissioner in London and to the Secretary, Tariff Board.

Ordered also that it be published in the *Gazette of India*.

D. T. CHADWICK,
Secretary to the Government of India.

No. M.-1150.

DEPARTMENT OF INDUSTRIES AND LABOUR.

Simla, the 6th June 1925.

RESOLUTION.

The Governor General in Council, with the sanction of His Majesty's Secretary of State for India in Council, is pleased to direct that the following further amendments shall be made in the rules for regulating the grant by Local Governments of licences to prospect for minerals and of mining leases in British India, published with the resolution of the Government of India in the Department of Commerce and Industry, No. 7552-7581-121, dated the 15th September 1913, as subsequently amended :—

(1) After rule 45 the following rule shall be inserted :—

"45A. No assignment of a mining lease or transfer of any right or interest thereunder shall be sanctioned by the Local Government except to a person holding a valid certificate of approval and subject to the condition that the total area (including the area to be assigned or transferred) held under mining leases by the assignee or transferee or those joint in interest with the assignee or transferee within the territories administered by the Local Government shall not exceed 150 square miles in the case of natural petroleum or 10 square miles in the case of minerals other than natural petroleum."

(2) In rule 50 (*vii*) the words "to a person holding a valid certificate of approval" shall be omitted.

ORDER.—Ordered that the resolution be published in the Supplement to the *Gazette of India* for general information.

A. A. L. PARSONS,
Secretary to the Government of India.

NOTICE.

Sreegopal Basumallik Fellowship on Vedanta Philosophy.

APPLICATIONS are invited for the appointment of a Lecturer as the Sreegopal Basumallik Fellow on Vedanta Philosophy, of the Calcutta University, for the year 1925.

The Lecturer will be required to deliver a course of at least twelve lectures in English, in December 1925, on Vedanta philosophy, dealing specially with the place occupied by the Vedanta in the philosophical system of the civilised world and of its merits as compared with Western schools of thought. The Lecturer must be well conversant with both the oriental and occidental systems of philosophy.

The honorarium of the Lecturer shall be Rs. 4,000.

The Lecturer will have to make over to the University a complete copy of his lectures after their delivery. The University has set apart an additional sum of Rs. 1,000 towards the cost of publication of the lectures.

Applications for the Fellowship should be submitted to the Registrar in writing *on or before the 31st August 1925, together with a synopsis of the lectures* proposed to be delivered.

The applications must also be accompanied by a statement of the qualifications of the candidates and the courses of study in Philosophy (Western and Eastern) pursued by them and by two testimonials.

Burdwan, the 8th June 1925.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated in metre-gauge miles 3 to 5, northern sections, in villages Jhowdia and Majdia, originally acquired for the construction of N. B. State Railway, in the district of Pabna, will be put up to sale at 12 o'clock on 21st July 1925, corresponding with the Bengali 5th Srabun 1332 B.S.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold (as a temporarily-settled estate of the district) to the highest bidders subject to annual assessment of revenue to be settled at the time of the sale.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it (and a regular conveyance will then be granted to the purchaser).

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

Karachi—Direction Finding Wireless Station opened.

No. 244 (second publication).—

Position.—Lat. 24° 50′ 55″ N., Long. 67° 03′ 29″ E.

Details.—A Direction Finding Wireless Station has been opened at Karachi and is now available for giving bearings to ships.

For the present the service will be regarded as experimental and no charges will be raised against ships calling for bearings.

Commanders of vessels entering Karachi are requested to use this service as much as possible and to submit to the Divisional Engineer, Wireless Engineering Division, Karachi, a report monthly embodying the results obtained and their usefulness for navigational purposes.

The method of calling for bearings is as follows :—

The ship calls VWK (Karachi Radio Station) in the usual manner and then gives QTE.

VWK then replies giving QTE.

The ship then gives

$\overline{\text{CT}}$ VWK DE (the ships call repeated for 2 minutes).

VWK will then call the ship and give the bearing as observed on the Direction Finding.

It is pointed out that the bearings given are great circle bearings and therefore allowance should be made for half-convergency when converting them into Rhumb line bearings for laying off the ship's position on a chart.

Owing to inherent errors occurring in bearings obtained during sunrise and sunset periods the station will be closed from 0530 to 0830 and 1730 to 2030 I. S. T. daily.

2. Ships approaching Bombay may also make use of the Direction Finding at Karachi until the Bombay Direction Finding is ready.

Authority.—The Director of the Royal Indian Marine, Bombay, Squadron Order No. 283, dated the 18th May 1925.

BAY OF BENGAL—BURMA COAST.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 10th June 1925.

Summary.—During the week general rain fell throughout the province. The fall was heavy in parts of Rajshahi and Chittagong Divisions and generally light elsewhere. Occasional showers with alternate sunshine helped the growth of standing crops and facilitated field operations on the whole, although continuous wet weather damaged the lowland crops in parts of North and East Bengal. The average price of common rice for the province has risen by about 0·25 per cent. as compared with that of the previous week.

MARINE DEPARTMENT.

NOTIFICATIONS.

No. 67Marine.—The 13th June 1925.—In exercise of the power conferred by section 21 of the Indian Merchant Shipping Act, 1923 (Act XXI of 1923), and with the previous sanction of the Governor-General in Council, the Governor in Council is pleased to make the following rules to regulate the granting of certificates of competency to engineers (including motor engineers), in supersession of the rules published under notification No. 32 Marine, dated the 25th March 1918, as amended by subsequent notifications.

J. A. WOODHEAD,
Secretary to the Government of Bengal.

CHAPTER I.—*General Rules.*

1. **Certificates of Competency granted to persons who pass requisite Examinations.**—Certificates of Competency will be granted to those persons who pass the requisite examinations and otherwise comply with the requisite conditions. For this purpose Examiners have been appointed and arrangements have been made for holding the examinations whenever necessary at the port of Calcutta.

2. The term "certificate" in these rules means any certificate referred to in section 12 of the Indian Merchant Shipping Act, 1923. A list of the British Possessions issuing certificates (see section 12 (*b*) of the Indian Merchant Shipping Act, 1923) is given in Appendix I. Certificates are designated "ordinary" or "motor" according to whether they relate to service in steamships or "motor ships".

3. **Value of Certificates.**—Until the 1st July 1925, Ordinary Certificates will entitle the holders to go to sea, in the grades certified, as Engineers of any vessels in the British Mercantile Marine. After that date they will not be available for service in ships propelled by internal combustion engines unless endorsed for the purpose, as provided for in rule 37.

Motor Certificates will entitle the holders to go to sea, in the grades certified, as Engineers of any vessels in the British Mercantile Marine propelled by internal combustion engines using oil, spirit, gas or other similar motive agent; but they are not available for service in steamships unless endorsed for the purpose, as provided for in rule 37.

4. **Colonial Local Certificates.**—The holder of a Colonial Certificate of Competency not granted under the Merchant Shipping Act, or of a Certificate granted after examination on board one of His Majesty's Ships, who wishes to be examined for a Government of Bengal Certificate of the same grade, must prove that he has performed the amount of service required by these regulations for that grade, and complied with the conditions laid down as to testimonials.

All Colonial Certificates of Competency, whether local or issued under Order in Council, must be given up before a further Certificate is issued by the Government of Bengal.

5. **Certificates of Service.**—An officer who has attained the rank of Engineer Lieutenant or Engineer Sub-Lieutenant in His Majesty's Navy, or in the Royal Indian Marine, is entitled without examination, if an Engineer Lieutenant, to a Certificate of Service as First Class Engineer, and, if an Engineer Sub-Lieutenant, to a Certificate of Service as Second Class Engineer. These officers may be examined for Certificates of Competency on the same conditions as Engineers in the Mercantile Marine.

An officer who has attained the rank of Chief Artificer Engineer in His Majesty's Navy is also entitled without examination to a Certificate of Service as Second Class Engineer.

6. **Examination of Engine Room Artificers.**—Artificer Engineers, Chief Engine Room Artificers, Engine Room Artificers, and Mechanicians in the Royal Navy may be examined for Certificates of Competency on the same conditions as Engineers in the Mercantile Marine.

7. **Application by Naval Officers.**—The Lords Commissioners of the Admiralty have directed that applications from officers of the Navy for Certificates of Service, or for permission to be examined for Certificates of Competency, must, in the case of officers on the active list, be made through the Commanding Officer to the Secretary to the Admiralty, and, in the case of officers who are on half-pay or who have retired, direct to the Secretary to the Admiralty, who in either case will forward the applications to the Board of Trade.

It is not necessary for applications of Chief or other Engine Room Artificers and Mechanicians, who have left the Royal Navy and who desire to be examined for Certificates of Competency as Engineers in the Mercantile Marine, to be forwarded either through their Commanding Officers or through the Admiralty. Men who are still serving in these ratings in the Royal Navy should make their applications through their Commanding Officers.

Artificer Engineers, however, being Warrant Officers, should make their applications in the same manner as that laid down for other officers of the Royal Navy.

8. **Time and Place of Examination.**—The times and places at which examinations are held are those as from time to time notified in the *Calcutta Gazette*.

N.B.—The examination days are liable to occasional alteration.

9. **Application for Examination.**—Every applicant for examination must fill up a form of application (Exn. 3), and pay the appropriate fee, at Port Office, signing the declaration on the form of application in the presence of the Chief Examiner. This must be done at least sufficiently early to ensure the form, properly filled in, together with the applicant's certificate of apprenticeship, testimonials, discharges, etc., being lodged with the Examiner of Engineers not later than the day before the day of examination. At least a week's notice should be given by applicants for Motor Certificates, and these notices must be immediately reported by the Examiners to the Chief Examiner.

The Examiner is, as a rule, responsible for seeing that the applications are in order and that the applicants' qualifications are sufficient, but in special cases, if necessary, before allowing an applicant to sit, he will, after seeing that all the required information is clearly stated in the papers, forward them with his observations to the Shipping Master for the verification of services, or to the Chief Examiner of Engineers for instructions, as the case may require, who will either deal with the case or transmit it to the Government of Bengal for decision.

10. **Inquiries.**—Persons wishing to inquire as to their eligibility for examination must fill up an application form, submit their papers, and pay the appropriate fee in the same way as applicants for examination.

11. **Proof of Nationality.**—Every applicant for a Certificate of Competency of any grade will be required to produce proof of nationality.

Proof of British nationality will, in ordinary circumstances, involve the production of a birth certificate or of a certificate of naturalisation. If an applicant for examination cannot produce such a certificate he should be asked to furnish such documentary evidence of nationality, or of birth and nationality of parents, as he may be able to obtain, and, if necessary, the case should be referred to the Chief Examiner for consideration.

If the applicant is not a British subject he will, as a rule, be able to produce some official document testifying to his nationality. If there is any doubt as to the authenticity of such document, the Examiner should consult the nearest Consular Officer of the nation to which the applicant belongs. If necessary, the case should be remitted to the Chief Examiner for consideration.

12. **Age.**—Should any doubt exist as to the age of an applicant, he will be required to produce a certificate of birth.

13. **Fee must be paid.**—Applicants for examination, and persons inquiring as to their eligibility for examination, will be required to pay the examination fee before any step is taken towards inquiring into their services or testing their qualifications, etc. If any applicant is found not to be qualified, the fee will either be returned to him or placed to his credit until he is qualified.

14. **Payment of Fees, and Penalty for Offering Gratuity.**—The fee for examination must be paid to the Port Officer. If an applicant offers a gratuity to any servant of the Department, he will be regarded as having committed an act of misconduct, and will not be allowed to be examined for twelve months, either at the port where the offence was committed or at any other port.

15. **Table of Fees.**—The following fees, respectively, are payable on each occasion on which an applicant presents himself for examination, either for a Certificate of Competency as Engineer, or for the Endorsement of a Certificate:—

	Rs.	A.	P.
Second Class Engineer's Certificate, or its Endorsement ...	20	0	0
First Class Engineer's Certificate, if the applicant holds a valid and appropriate Second Class Certificate of Competency ...	20	0	0
First Class Engineer's Certificate, if the applicant does not hold a Second Class Certificate as above described	40	0	0
Endorsement of First Class Engineer's Certificate, if the applicant previously held a Second Class Certificate appropriate to the Endorsement desired	20	0	0
Endorsement of First Class Engineer's Certificate, if the applicant had not previously held a Second Class Certificate of this description	40	0	0

16. **Fees not returned on Failure.**—If a candidate fails in his examination no part of the fee he has paid will be returned to him.

17. **Sea Service must be Verified.**—Service which cannot be verified by proper entries in the articles of agreement of the ships in which the applicants have served cannot be counted. In all cases the applicants' names must have been duly entered on the ship's Articles as Engineers in their proper ranks.

As discharges and testimonials may have to be forwarded to the Shipping Master for verification, it is desirable that they should be handed in, together with the form of application, as many days as possible before the date of the examination at which the applicant desires to attend. In the absence of the necessary verification the applicant cannot be examined.

In all cases in which certificates of discharge in the home or other trade which have not been officially issued at a Mercantile Marine Office are produced as evidence of any part of an applicant's qualifying service, they should be submitted to the Shipping Master for verification.

18. **Service in Foreign Vessels.**—The testimonials of service of foreign or British Engineers serving in foreign vessels, which cannot be verified by the Shipping Master, must be confirmed either by the Consul of the country to which the ship in which the applicant served belonged, or by some other recognised official authority of that country; or by the testimony of some credible person on the spot, having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case must be decided on its merits; and if the sufficiency of the proofs given appears to be at all doubtful, the point must be referred to the Chief Examiner.

19. **Calculation of Service.**—The applicant's service as shown on his discharges should be reckoned by the calendar month, *i.e.*, the time included between any given day in any month and the preceding day of the following month, both inclusive. The number of complete months from the commencement of the period, ascertained in this way, should be computed; after which the number of odd days should be counted. The day on which the agreement commences as well as that on which it terminates should both be included and all odd days should be added together and reckoned at 30 to the month.

20. **Gaps in Service.**—The Examiner should be particularly careful to ascertain that there are no gaps in the applicant's service during which his conduct is not properly accounted for, before he is allowed up for examination.

21. **Testimonials; Workshop Service.**—All applicants will be required to produce, in addition to the official discharge certificates, testimonials as to their workshop service and as to their service at sea. The testimonials as to workshop service must be signed by the employer, and must testify to the applicant's conduct and ability, and state what kind of work he was engaged on (*e.g.*, fitting, erecting, turning, machine work, etc.), and for how long. (*See* rule 38.)

22. **Testimonials; Sea Service.**—It is desirable that the whole of the applicant's sea service should be covered by testimonials certifying to his sobriety, experience, ability, and general good conduct, but the usual testimonials will be required for at least the last 18 months at sea preceding the date of the application to be examined. They must be signed by the Master and Chief Engineer, or in the case of testimonials to Chief Engineers by the Superintendent Engineer, and must clearly state whether the applicant was on regular watch, and in regular charge of a watch on the main engines or boilers; also, if not engaged on both engines and boilers, the length of time he served on each separately. It is desirable that testimonials should be endorsed by the Superintendent Engineer.

In cases where a testimonial from the Chief Engineer or from the Master is for any sufficient reason not obtainable, one from the Superintendent Engineer or from the Managing Owner, or Secretary, or Chairman of a large company may be substituted; but, in every such instance, the testimonial must declare that the facts stated are in accordance with the reports made by the Chief Engineer, or the Master, as the case may be, or else that they are within the writer's personal knowledge.

If, in any case, testimonials appear to have been withheld for improper or inadequate reasons, full particulars should be reported by the Examiner to the Chief Examiner.

23. **Physical Defects.**—When an applicant is observed to be hard of hearing, or is labouring under any other obvious physical defect, the signatories of his testimonials are required to mention that defect specifically, and to state whether it in any way interfered with the efficiency of the applicant as an engineer on watch. When these modified testimonials are such as completely to satisfy the Examiner that the defect is not such as to interfere with the efficient discharge of the applicant's duties as engineer, the examination is proceeded with; otherwise the case is referred to the Chief Examiner.

24. **Penalty for Misconduct.**—Applicants who have neglected to join their vessels after having signed Articles, or who have deserted their vessels after having joined, or who have been found guilty of gross misconduct, will be required to produce satisfactory proofs of two years' subsequent service and good conduct at sea, unless the Government, after having investigated the matter, should see fit to reduce the time. Particulars of all such cases should be referred to the Chief Examiner.

25. **Foreign Engineers.**—Foreign engineers cannot be examined for a First Class Certificate unless they have performed the sea-service stated in rule 34, with the requisite British Certificate. The service may have been performed in foreign vessels if the applicant can produce satisfactory testimonials as to conduct and character, and is able to prove that the service has been in the required capacities, and that during the period of service he has held a British Certificate of Competency of the grade required by the Regulations (*see* rule 18).

26. **Knowledge of English Essential.**—All candidates including foreigners and British subjects of foreign extraction, must prove to the satisfaction of the Examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel.

27. **Issue of Certificate.**—If the candidate passes he will receive a form (Exn. 16) authorising the Port Officer to whom it is addressed to issue the Certificate. The candidate's testimonials and other papers will be returned to him when the examination is finished. It is therefore important that the port at which the Certificate is to be issued should be the same on both the form Exn. 16 and the form of application, Exn. 3. If circumstances should make any alteration necessary, the Examiner should see that it is made in both forms; otherwise delay in the issue of the Certificate may be caused.

28. **Service found to be insufficient.**—If, after a candidate has passed the examination, it is discovered on further investigation that his services are insufficient to entitle him to receive a Certificate of the grade for which he has passed, the Certificate will not be granted to him; but if the Government are satisfied that the error in the calculation of the candidate's services did not occur through any fault or wilful misrepresentation on his part, he may either have the fee returned to him or have it placed to his credit. Should his services entitle him to a Certificate of a lower grade it may be granted to him, and the difference, if any, between the fee paid by him for the superior Certificate and the fee payable for the inferior Certificate will be returned to him or placed to his credit. The superior Certificate will not be granted until the candidate has performed the amount of service in which he was deficient, and has been re-examined in all the subjects, unless the Government see fit to dispense with the re-examination.

29. **Copy of Lost Certificate.**—An applicant for a certified copy of a lost Certificate, either of Competency or Service, must fill in a form of application, Exn. 23, giving the particulars required, and hand it to the Port Officer. A declaration as to the circumstances in which the Certificate was lost must be made by the applicant before a Magistrate.

CHAPTER II.—*Qualifications required for the various grades.**

30. **Second Class Engineer.**—A candidate for a Second Class Engineer's Certificate, whether Ordinary or Motor, must be not less than 21 years of age.

(*a*) **Workshop Service.**—A candidate must have served as apprentice Engineer for four years at least in the United Kingdom or five years in India and prove that during this period he has been employed in the manner set forth in rule 38.

Service as journeyman is accepted in lieu of apprenticeship.

If the character of the workshop service performed is not of the standard prescribed, additional service will be required as explained in rule 39.

If the total period of the candidate's workshop service, as calculated in accordance with these Regulations, is less than four or five years as the case may be, the candidate may make up the deficiency by service at sea, either (1) on day work on board foreign-going steamships of not less than 66 nominal horse-power, and/or motor ships of not less than 373 brake horse-power, or on regular watch on the main propelling machinery of such ships, or (2) on regular watch on the main propelling machinery of home trade steamships of not less than 66 nominal horse-power, and/or motor ships of not less than 373 brake horse-power; such service to be counted as equivalent in the case of (1) to two-thirds, and in the case of (2) to four-ninths of service as apprentice Engineer or journeyman. No day work at sea performed before the age of 21 years will be accepted.

* These qualifications are shown in tabular form in Appendix I.

(*b*) **Sea Service.**—In addition to the above workshop service or the alternative sea service, a candidate must have served at sea for a period equivalent to 18 months in foreign trade, as engineer on regular watch on the main propelling machinery of steamships of not less than 66 nominal horse-power, and/or motor ships of not less than 373 brake horse-power. Time served in the home trade is reckoned at two-thirds of the time similarly served in foreign trade. For an Ordinary Certificate, at least two-thirds of the required period of service must have been performed in steamships, and for a Motor Certificate at least two-thirds must have been performed in motor ships. The remainder of the service, in each case, may be performed in either steam or motor ships.

31. **Second Class Certificate: Syllabus of Examination.**—A candidate for a Second Class Certificate, whether Ordinary or Motor, is required—

(*a*) to write legibly, spell correctly, and express himself, generally, in creditable English :

(*b*) to show sufficient knowledge of the metric system, etc., and of mathematics for dealing successfully with simple problems relating to mechanical principles, beams, safety and relief valves, consumption of fuel and stores, capacities of bunkers, tanks, etc., speed of vessels, strength of pipes and receivers, subjected to internal pressure, stresses in shafting and other parts of the machinery, etc. :

(*c*) to be familiar with the physical characteristics of the metals and other materials commonly used by sea-going Engineers :

(*d*) to have a creditable knowledge of the facts relating to steam, heat, combustion and the formation of smoke :

(*e*) to understand the use, construction, and principles involved on the action of the pressure gauge, thermometer, barometer, salinometer, and other meters commonly used by Engineers on board ship :

(*f*) to be able to state the causes, effects, and usual remedies for incrustation and corrosion :

(*g*) to know how to make good the results to the machinery of ordinary wear and tear ; how to test the fairness of shafting ; how to correct defects due to corrosion, flaws or accident ; and how a temporary or permanent repair could be effected in the event of derangement or total breakdown :

(*h*) to understand the construction of centrifugal, bucket, and force pumps, the principles on which they act, and the general requirements concerning bilge and ballast pumping systems :

(*i*) to understand the construction and working of steering-engines and gears, electric light engines and dynamos, electric motors, refrigerating machinery, hydraulic machinery, and such internal combustion engines as are used to drive ships' launches, emergency and auxiliary machinery on board ship :

(*j*) to be able to apply the indicator, calculate the mean pressure and horse-power, and understand, generally, the fluctuation of pressure in the cylinder as shown by the diagrams obtained :

(*k*) to have a fair knowledge of the rudiments of projection, and be able to make a dimensioned working drawing of some simple part of the machinery with which he ought to be familiar, or to complete and develop a given example.

32. **For an ordinary Certificate.**—The candidate must also be prepared to be examined in the following subjects :—

(*a*) the methods of constructing marine steam engines and boilers, as used in the workshops, the processes to which the several parts are submitted, or which are incidental to their manufacture ; and the methods employed in fitting the machinery on board ship :

(*b*) the various designs of paddle and screw steam engines (including turbines) now adopted ; the functions of each important part ; and the attention required by the different parts of the machinery on board ship :

(*c*) the methods of testing and altering the setting of the slide valves ; and the effect produced in the working of the engines by definite alteration of the valves' setting :

(*d*) the construction and working of evaporators, feed heaters and feed filters :

(*e*) marine boilers of various modern designs ; the manner of staying them, and also of preventing their movement when the vessels in which they are fitted are rolling heavily, etc. ; the determination, by calculation, of a suitable working pressure for a boiler of given dimensions :

(*f*) the use and management of boiler fittings and mountings, with special reference to the water gauges (*see* Appendix F) and safety valves ; the precautions necessary to be taken when raising steam, and when opening stop valves to admit steam to steam pipes, etc.:

(*g*) the installations generally employed, respectively, for forcing draught, superheating steam, and burning oil fuel ; the attention they require when working, and the care necessary for their maintenance in satisfactory condition.

33. **For a Motor Certificate.**—The candidate, in addition to compliance with rule 31, is required—

(*a*) to be able to give a clear explanation of the principles on which oil, gas, or other internal combustion engines work, including the methods of ignition; to point out the differences between them, and to show, by means of sketches and otherwise, that he understands the details of the construction of those in general use:

(*b*) to be familiar with the various methods of supplying air and fuel to the cylinders of engines of different types; the construction of the apparatus for carburetting, atomising or gasifying the fuel; the means of cooling the cylinders, pistons, etc.; and construction and working of air compressors:

(*c*) to have a satisfactory knowledge of the methods of constructing marine internal combustion engines, as used in the workshops; the processes to which the several parts are submitted, or which are incidental to their manufacture; and the methods employed in fitting the machinery on board ship:

(*d*) to know what attention is required to be paid to the various parts of the machinery; and to understand the use and management of the different valves, pipes and connections:

(*e*) to be able to state and describe the chief causes which make the engines difficult to start, and to explain how he would proceed to remedy any defects arising therefrom; also, to show that he understands the mechanism of the starting and reversing arrangements, and is competent to deal with any defects therein:

(*f*) to be able to explain the principle, construction and arrangement of primary and secondary batteries, and induction coils, so far as is necessary for the efficient management of an oil engine:

(*g*) to possess a good working knowledge of the construction and management of auxiliary steam boilers and machinery:

(*h*) to be familiar with the nature and properties of the various oils, etc., generally used in internal combustion engines, and to understand what is meant by "flash" point; also to have a knowledge of the explosive properties of the gas or vapour given off by these oils, etc., when mixed with a definite quantity of air; and to be thoroughly conversant with the danger of exposing a naked light to such gas or vapour, or of allowing any leakage from the oil tanks, gas producers, pipes, vaporisers, etc., particularly into the vessel's bilges and other unventilated spaces:

(*i*) to understand thoroughly the precautions to be taken against fire or explosion from oil or gas, and how to deal with fire should it break out; also to be familiar with the action of wire gauge diaphragms, when placed in pipes and connections to oil tanks, etc., for the purpose of preventing the explosion or ignition of the oil vapour therein.

34. **First Class Engineer.**—A candidate for a First Class Engineer's Certificate, whether Ordinary or Motor, must not be less than 22½ years of age.

Sea Service.—The candidate must—

(*a*) have served at sea in foreign trade for eighteen months, on regular watch on the main propelling machinery, as Senior Engineer in charge of the whole watch (*see* rule 42); *or*

(*b*) have served at sea in the home trade for 2 years and 3 months as First Engineer for 3 years as Second Engineer; or 3 years and 9 months as Third or Fourth Engineer, being Senior Engineer in charge of the whole watch on the main propelling machinery; *or*

(*c*) possess, or be entitled to, a First Class Certificate of Service.

Subject to the provisions of rules 36 and 37, the whole of the required period of qualifying service must have been performed while in possession of a Second Class Certificate of the same description (Ordinary or Motor) as that for which the candidate wishes to be examined; and it must have been performed in steamships of not less than 99 nominal horse-power and/or motor ships of not less than 560 brake horse-power. At least two-thirds of the required service must have been in ships of the type (steam or motor) to which the desired Certificate relates; the remainder of the service may have been in either steam or motor ships.

35. **First Class Engineer: Syllabus of Examination.**—The candidate is required—

(*a*) to display a superior knowledge of all the subjects specified in rule 31 and in either rule 32 or rule 33 as the case may be:

(*b*) to show that he understands how to maintain in good working condition any machinery or other appliances which may be placed in his charge; how to provide against defects and breakdowns; and also to show that he is competent to carry out or direct any ordinary repairs or renewals that may be required:

(*c*) to be acquainted with the usual structure of an ordinary steel ship, and understand how to preserve in good condition such parts as the bilges, bunkers, tanks under the boilers, etc. :

(*d*) to be able to recognise from an indicator diagram any irregularity in the working of the engine which it may show, to know how this might be rectified, and to be able to sketch approximately the difference any alteration in the working of the valves, etc., would produce in the diagram :

(*e*) to be able to make a satisfactory working drawing of one or more of the principal parts of the machinery, or other appliances with which he ought to be familiar, or to complete and develop a given example ; and supply the figured dimensions and other particulars necessary to enable the part or parts depicted to be made from the drawing.

For an Ordinary Certificate.—The candidate is also required—

(*f*) to be thoroughly conversant with the principles and practice of surface condensation, superheating, and the working of steam expansively, and with the economical and efficient use of coal and oil fuel.

For a Motor Certificate.—He is also required—

(*g*) to know how the flash point of an oil is ascertained, and be capable of determining experimentally that of any sample when the necessary apparatus is provided.

36. **First Class Certificates without Second.**—The Government of Bengal may see fit to allow an applicant who, in consequence of service abroad, has had no opportunity to obtain a Second Class Certificate, either Imperial or Colonial, to be examined for a First Class Ordinary, or Motor, Certificate, although he does not possess a Certificate of the lower grade, provided he is able to satisfy them as to the satisfactory character of his services ; but these must be ample both as regards length and experience. As a rule, at least 4 years' sea service, a fair proportion of which must have been in a responsible capacity, and qualifying for a First Class Certificate, will be required ; but all applications under this rule should be submitted by the Examiner to the Chief Examiner for consideration.

If any such candidate fails to pass the examination for the First Class Certificate, but passes that for the lower grade, he may be given a Second Class Certificate of Competency, but no part of the fee will be returned. If he fails in practical knowledge, he may be re-examined for a Second Class Certificate only, subject to the usual regulations relating to such failures.

Until the 1st July 1925, the holder of a Second Class Ordinary Certificate may be examined for a First Class Motor Certificate without previously obtaining a Second Class Motor Certificate, provided that he proves that he has served for at least 18 months at sea in a capacity qualifying for First Class, in a suitable motor vessel.

37. **Endorsement of Certificates.**—The holder of an Ordinary Certificate may, at any time, have it endorsed to the effect that he is competent for service in the appropriate capacity in motor ships, provided that he proves at least 9 months' service in foreign trade or 13½ months in the home trade in a qualifying capacity, in motor ships of horse-power not less than that required by these Regulations, and passes the appropriate examination. The holder of a Motor Certificate may have it endorsed for service in steamships provided that he proves at least 12 months' service in foreign trade or 18 months in the home trade in a qualifying capacity in steamships of horse-power not less than that required by these Regulations and passes the appropriate examination.

Sea service performed in charge of a watch in vessels of the required horse-power whilst holding a Second Class Certificate, either Ordinary or Motor, will be accepted as qualifying for First Class Endorsement of either denomination, provided that in the case of an Ordinary endorsement the necessary experience has been gained on both main engines and boilers of a steamship. (*See* rule 42.)

38. **Workshop Service.**—A candidate is expected to have served not less than four years in the United Kingdom or five years in India as apprentice Engineer or journeyman, at the making or repairing of steam or internal combustion engines such as would be recognised as affording useful training for a marine engineer. No time served before the age of 15 will be accepted.

Not less than two years in the United Kingdom or three years in India of this period should have been devoted to fitting, erecting or repairing engines of suitable size, either in the works or outside, and the remaining two years may have been spent (1) on work of this nature ; (2) on work in other branches of the trade, subject to the time allowances specified in the schedule below ; (3) at an approved technical school, subject to the conditions specified in rule 41.

SCHEDULE OF TIME ALLOWANCES in respect of workshop service, other than fitting, erecting or repairing, but performed in connection with engines of the nature indicated above. Total maximum allowance two years.

Turning	Full time.
Working in drawing office ...	Full time up to one year, and beyond one year one-half time.
Brass finishing (good heavy work)	Full time up to one year, and beyond one year one-half time.
Boiler making or repairing ...	One-half time.
Pattern-making ...	One-half time, with a maximum allowance of one year.
Smith work	One-half time, with a maximum allowance of one year.
Planing, slotting, shaping, and milling	One-third time.
Coppersmith work ...	One-third time, with a maximum allowance of six months.

In the event of the apprenticeship time being extended to five years in the United Kingdom or six years in India or more, four years at turning *followed* by one year in the United Kingdom or two years in India at fitting or erecting may be accepted as qualifying.

This rule applies only to works at which the making and/or repairing of engines, boilers, etc., forms part of the regular business for which the works exist. Service at works where the repairing of engines, boilers, etc., is merely incidental to the running of plant, however large, which is used for the production of power for other machinery, etc., should be dealt with under rule 39, each case being considered on its merits.

39. **Workshop Service where engines of suitable size are not made or repaired.**—Workshop service other than that mentioned in rule 38, may be accepted if it is considered useful training for a sea-going Engineer, but each case must be submitted to the Chief Examiner for consideration before the applicant is examined. For every 12 months of such service accepted, the applicant must have performed at least an additional three months' service on marine engines (steam or motor), either in the works or at sea on regular watch on the main propelling machinery or on day work; and a longer additional period may be required if the deficient character of the service warrants further compensation.

40. **Service in Colonial and Foreign Workshops.**—Rules 38 and 39 apply to service in the United Kingdom and/or India only. Service in a Colonial or foreign workshop will not be accepted unless the Examiner is satisfied in each case that its value is substantially equivalent to that of service performed in the United Kingdom and/or India. In cases where the Examiner is not satisfied that the value is equivalent, he should refer the matter to the Chief Examiner.

Workshop service in India is in no case to be taken as equivalent to more than four-fifths of the same period of service in the United Kingdom.

41. **Technical Schools.**—Time spent at an approved day Technical School, where there is an engineering laboratory, is, subject to the conditions mentioned in Appendix II, accepted as equivalent to workshop service, usually in the ratio of three years in the Technical School to two years' workshop service, provided also that the applicant has taken the full engineering course, and can produce the Principal's certificate for regular attendance at all the approved classes, and for satisfactory progress.

Time spent in attending evening classes in Engineering at approved Technical Schools will similarly be allowed to count under the following conditions:—

(1) each applicant claiming an allowance for time spent in attending evening classes at a Technical School must produce a certificate signed by the Principal of the School to the effect that he has attended regularly at a definite class or classes, which should be specified, and has made satisfactory progress. This certificate must also state the total number of hours spent by the applicant in attending each class;

(2) time spent by the applicant in attending such classes as have a direct bearing on the training of a Marine Engineer will be reckoned at the rate of five hours to one day. The total number of days so obtained will then be accepted in lieu of a certain fraction of the same period of workshop service. This fraction will be fixed for each school at the time of approval, and will generally be two-thirds;

(3) an applicant who has attended a Technical School in the evening, while being employed as an apprentice Engineer or journeyman during the day, must, in order that the school time may be accepted, produce satisfactory proof that he has spent the full working day in the works at which he is employed before attending the school. Such proof will usually take the form of a statement in the testimonial as to workshop service given by the employer.

Time spent in foreign technical schools can in no circumstances be recognised.

For list of approved technical schools and time allowed for attendance at each *see* Appendix G.

42. **Sea-service.**—The sea-service required by these Regulations is, unless otherwise stated, service performed in foreign-going ships propelled by engines of at least the horse-power specified for the respective grades of certificate. The nominal horse-power of a steamship, as given on the Certificate of Registry, may in all cases be accepted by the Examiners; or it may be determined by the following formula :—

$$\text{N.H.P.} = \frac{(3H + D^2 \sqrt[3]{S}) \sqrt[3]{P}}{700}$$

where H = heating surface of main boilers in square feet, measured down to the level of the fire bars, but excluding the front tube plate.

D^2 = square of diameter of low pressure cylinder, or sum of squares of diameters of cylinders in non-compound engines, measured in inches.

S = length of stroke of engines in inches.

P = pressure of main boilers in pounds per square inch.

Service in the home or coasting trade is regarded as being equivalent to two-thirds of the same period of time served in the foreign trade except where other allowances are specified. (*See* rules 30, 35, 38, 44, 45, 46 and 47.)

In the case of Indian coasting voyages extending beyond a distance of 500 miles from the port of departure in steamships commanded by Masters holding foreign-going certificates, such service will count as foreign voyages, and will be reckoned as full time; but the time spent in the port of departure or Home port will not be allowed to count. In all cases the length of service is deemed to commence on the date of sailing from the port of departure or Home port and to end on the date of arrival at the Home port.

"Service on regular watch" means officer's watch-keeping service on main propelling machinery for at least eight hours each day. In no case may time spent on clerical work or on fitting or overhauling machinery, either on regular watch or on day work, be regarded as qualifying watch-keeping service.

In the case of applicants for Second Class Ordinary Certificates, service to qualify must be on main engines and boilers, not less than six months being spent on each of these two sections, if the service is not performed simultaneously on both.

In the case of applicants for First Class Certificates, qualifying service means, as a rule, service as Senior Engineer in charge of the entire watch on the main propelling machinery, but service in charge of a boiler room only may be regarded as qualifying up to a maximum of 12 months. Service as second in seniority in the engine room of a vessel propelled by two or more sets of engines may also be accepted, and this without restriction; but service in the engine room as assistant engineer below this rank may only be accepted as half the actual time value. Service to qualify must have been performed while in possession of a Second Class Certificate except in the case for which provision is made in rule 36. Candidates who qualify by service as second in seniority in the engine room or as assistant engineer below the rank will be subjected to a somewhat more searching examination than those who have performed the required amount of service while in charge of a full watch.

Every applicant should produce testimonials in respect of the qualifying period of his service signed, in each case, by the Chief Engineer under whom his service has been performed, stating his actual rank on watch, the number of engineers simultaneously on watch on the main propelling machinery, and the nature of the duties performed by him. It is desirable that each testimonial be endorsed by the Master of the vessel or by the Superintendent Engineer; testimonials signed only by the Company's Superintendent or other officials should not, as a rule, be regarded as sufficient.

43. **Marine Technical Schools.**—An applicant for either a Second Class or a First Class Ordinary or Motor Certificate who, within two years from the date of application to be examined, has attended an approved course, comprising general mathematical and scientific instruction at a Technical School recognised by the Government as suitable for the training of *Marine* Engineers, will be allowed to count time so spent as equivalent to sea service usually in the ratio of three months at the Technical School to two months at sea. Time so spent cannot be accepted as equivalent to more than one-sixth of the total sea service required for either Certificate, but an applicant who has been allowed to count such time on examination for a Second Class Certificate will not be debarred from counting similar subsequent time on applying for examination for a First Class Certificate.

In every case in which an allowance is made for time spent at a Marine Technical School, the applicant will be required to produce the Principal's Certificate for continuous and regular attendance at all the approved classes, and for satisfactory progress.

The applicant must also produce his class note books, which will be forwarded to the Chief Examiner, in order that he may satisfy himself that the applicant has followed the approved course of instruction, and that the remission of sea service claimed may be allowed accordingly.

Applicants for examination who claim remission of sea service should, as a rule, make their claim on form Exn. 3 at least a week before they desire to sit.

A list of the Marine Technical Schools recognised for this purpose is given in Appendix G.

44. **Lake or River Service.**—Service as watch-keeper on a lake or river vessel of not less than the required horse-power may be accepted under the following conditions for either an Ordinary or a Motor Certificate :—

(*a*) the service will only count half as much as sea service ; *i.e.*, every two months of lake or river service is only equivalent to one month's foreign-going sea service ;

(*b*) applicants for Second Class Certificates must prove that, in addition to lake or river service, they have had at least three months' qualifying service at sea in a foreign-going ship of not less than the horse-power specified in rule 30 (*b*), or four and a half months' similar service in the home trade ;

(*c*) applicants for First Class Certificates, in addition to lake or river service in vessels of not less than the horse-power named in rule 34, must prove that they have had at least six months' qualifying service at sea, with a Second Class Engineer's Certificate, in foreign-going vessels of not less than the horse-power specified, or nine months' similar service in the home trade.

45. **Service in Auxiliary Screw Ships.**—Service as Engineer performed on board auxiliary screw whalers and other vessels with auxiliary power not less than that required for a Second Class Certificate may be allowed to count as qualifying for examination for a Second Class Engineer's Certificate to the extent of one-half the time the vessel is actually at sea. If the applicant is able to prove that the main engines were running for longer than this, he will be allowed to count the whole of such extended time.

46. **Service in Dredgers, Fishing-boats, Tug-boats, or Pilot-vessels.**—Service in sea-going dredgers, fishing-boats, or tug-boats, and in pilot-vessels when on their station or when going to or returning from the same, may be accepted under the following conditions :—Two months of such service is only equivalent to one month's qualifying service in a foreign-going vessel. Applicants for Second Class Certificates may perform all their sea service in sea-going dredgers, fishing-boats, tug-boats, or pilot-vessels, but they must have been on regular watch on the main propelling machinery, the horse-power of which must not be less than that required. Candidates for First Class Certificates must, while in possession of a Second Class Certificate, have served in vessels of at least the horse-power named in rule 34, and have been in charge of the whole of a watch on the main machinery. They must also have served, in a qualifying capacity, for not less than six months in a foreign-going ship, or nine months in a home-trade ship.

This rule will not apply to service on the steam pilot vessels at the Sandheads. Service on the regular watch on board such vessels for the period the vessels are on the station, or when going to or returning from the same, shall be accepted as equivalent to two-thirds of the time performed in foreign-going trading vessels, as in the case of steam yachts.

Where an Engineer is employed on a fishing or other vessel, and is required to do stoking or other work not usually performed by an Engineer in the Mercantile Marine, such service cannot be accepted as qualifying.

The Examiners should in all cases satisfy themselves that service on fishing boats, when claimed as qualifying for a certificate as Engineer, is of a nature similar to that performed by Engineers in the Mercantile Marine.

47. **Service in Yachts.**—Service performed in yachts, either within or beyond home-trade limits, may be accepted as equivalent to two-thirds of the time performed in foreign-going trading vessels, provided that the applicant's name is entered on the vessel's articles, and that he can prove, to the satisfaction of the examiner, that the time claimed was actually served at sea.

Applicants for Second Class Certificates may perform all their service in yachts, but the applicant must have been on regular watch on the main machinery, and the vessel must be of not less than the horse-power stated in rule 30 (*b*).

Applicants for First Class Certificates must have served in vessels of the requisite horse-power, and must have been in regular charge of the main machinery. They must also have served for at least three months in a qualifying capacity on board a suitable foreign-going ship. This additional service will, however, not be required in the case of an applicant who has served for 27 months as First Engineer, or for three years as a Second Engineer, of a yacht of the requisite power.

48. **Service in cable ships.**—A candidate for examination, a part of whose qualifying service has been performed in cable ships, will be required to produce, in addition to the usual evidence, of sea service, a statement or certificate from the owners of the vessel showing the amount of time actually spent at sea. If the time so spent constitutes or exceeds two-thirds of the total time on articles, this total time may be accepted in full as qualifying service, but in the event of the actual sea service falling below this proportion, the deficiency must be made up by additional service at sea before the total time on articles can be accepted in full as qualifying service.

CHAPTER III.—*Conduct of the Examinations.*

49. **Strangers not Admitted.**—No persons will be allowed in the rooms during the examinations, other than those whose duties require them to be present.

No instructors will be allowed on the premises.

50. **Commencement and Duration of Examinations.**—The examinations will, as a rule, commence at 10-30 A.M., and will be continued from day to day, until all the candidates are examined.

51. **Candidates to be Punctual.**—Candidates are required to appear at the examination room punctually at the time appointed.

52. **Candidates' Places.**—Candidates should be so placed as to prevent one copying from another, and no communication whatever between the candidates should be allowed.

53. **Tables to be Cleared.**—Before commencing the examination, the tables and desks must be cleared of all scraps of paper, or books that are not used in the examination, and care should be taken that the candidates while in the examination room do not have in their possession any book or paper, except as specified in rules 59 and 60. A sheet of blotting paper will be issued to each candidate with the first examination paper, and it must be returned to the examiner when the last paper is completed each day. The examiner should be careful to see that the blotting paper has not been used by the candidate in solving his problems, or for conveying information to other candidates.

54. **Drawing Instruments.**—Drawing boards and T squares will be provided by the Government, but the applicants will have to bring with them any drawing instruments they may require.

55. One set of the arithmetical questions should be given to the candidate for the morning's work at 10-30 A.M. and one for the afternoon's at 1-45 P.M., and collected not later than 1 and 4-30 P.M.

56. **Order of Examinations.**—At the examinations for First and Second Class Ordinary and Motor Certificates, papers on Practical Mathematics, Drawing, and Engineering Knowledge are given, and the candidates are finally questioned verbally on their Practical Knowledge.

Mathematics and Drawing are omitted in the case of examination for the Endorsement of a Certificate for converse service in the same grade.

Each paper on Practical Mathematics and Engineering Knowledge contains six questions. The papers will, as a rule, be distributed in the following order :—

Time.	Second Class.	First Class.
First day :—		
Morning ...	Engineering Knowledge. 1st Paper...	Engineering Knowledge. 1st Paper.
Afternoon ...	Engineering Knowledge. 2nd Paper	Engineering Knowledge. 2nd Paper.
Second day :—		
Morning ...	Drawing	Practical Mathematics. 1st Paper.
Afternoon ...	Drawing	Practical Mathematics. 2nd Paper.
Third day :—		
Morning ...	Practical Mathematics. 1st Paper ...	Drawing.
Afternoon ...	Practical Mathematics. 2nd Paper ...	Drawing.
Fourth and following days.	Verbals	Verbals.

57. **Examination Papers, when to be opened.**—Envelopes containing examination papers are on no account to be opened by any person other than the Examiner, and by him only at the commencement of the examination. He should see that the packet has not been tampered with, and he is expected to take special precautions to preclude the possibility of unauthorised person having access to the papers. All question sheets should be returned to the Chief Examiner at the conclusion of each day's work, except those relating to examinations for Extra First Class Certificates, which may be retained until the conclusion of the examination in question.

58. **Rules to be observed during the Examination.**—

I. Candidates must not have with them any books, notes, memoranda or paper other than that supplied for use at the examination. If any candidate has brought any such notes, etc., with him he must hand them to the Examiner before beginning his work.

II. Perfect silence must be observed during the examination.

III. Candidates are advised to read the questions carefully, and to confine their attention to the problems as presented, without dealing with extraneous matter. This advice is applicable to all parts of the examination, but especially to the Drawing.

IV. The numbers of the questions to which the working has reference should be clearly indicated, but the questions themselves should not be copied. All work should be done in ink, except as specified on the subject-paper for drawing.

V. Suitable recognition will be given for clear statements, reasoning and calculations in solving the problems.

VI. Candidates will be required to write a report, or letter, in which English composition and legible handwriting will be taken into account; and bad grammar, faulty spelling and errors of punctuation will be discredited.

VII. Additional sheets of paper will be provided by the Examiner, if required. Only one side should be used, and the candidate should sign his name, and write the port and date, at the foot of each sheet. These particulars should also be given on the cover of each answer-book and on each sheet of drawing paper used.

VIII. Reference to the mathematical tables provided for the purpose is allowed, except in respect of questions which distinctly state that such reference is not permissible.

IX. Candidates may, if they wish, use slide-rules for checking their calculations, but in each case the full working necessary for arriving at the result must be shown in ink, otherwise no significance will be attached to the answer.

X. The question papers and mathematical tables, which are the property of the Government, must not be written upon or defaced in any way.

XI. No candidate may leave his seat or the examination room without permission; and if he leaves the room he will not be permitted to go on with any sheet or problem which he had in hand before leaving the room.

XII. Candidates must not communicate with each other or use any unfair means.

XIII. A candidate guilty of any breach of these rules will be subjected to all the penalties of failure, and may be excluded from further examination for such period as the Government may decide.

59. **Mathematical Tables** (Rule VIII).—All candidates for examination may use the examination room books of mathematical tables which must always be kept under the charge of the Examiner, who will be careful to observe that it is not used to conceal memoranda prepared for these examinations. No other books will be allowed unless the question set specially states that a book may be referred to.

60. **Leaving Examination Room** (Rule XI).—In the event of a candidate being permitted to leave the room, the Examiner should substitute other questions for those which have not been attempted.

61. **Penalty for Breach of Rules** (Rule XIII).—The circumstances attending any breach of the Rules or Regulations, or any disorderly or improper conduct in or about the examination room, should be reported immediately to the Chief Examiner, who will in due course advise the Examiner as to any penalty the Government may decide to inflict.

62. **Marking Worked Papers.**—The value of the work done in all four sections of the first and second class examinations (Practical Mathematics, Drawing, Engineering Knowledge, Verbals) will be assessed and recorded in accordance with the following scale:—

Marks	0— 49	=	Weak,	denoted by symbol	W.
„	50— 59	=	Consider	„ „ „	C.
„	60— 74	=	Good	„ „ „	G.
„	75—100	=	Superior	„ „ „	S.

In order to pass, a candidate's work should be "Good" in all four sections, but it *must* be "Good" or "Superior" in verbals. A "Consider" in either the Practical Mathematics, Drawing or Engineering Knowledge paper may be counterbalanced by a "Superior" in any of the other sections. Two "Considers" or one "Weak" will entail failure.

63. **Verbals.**—The Examiner should deal with practical, rather than theoretical questions in this division of the examination, and no candidate should be failed in the verbal examination without having been well cross-questioned on the points on which failure takes place.

Questions on the management of engines and boilers at sea, the duties of the supervising engineer, the work to be done to the engines, boilers and auxiliary machinery in port, and the periodical examinations of the working parts, should form part of the verbal examination.

It is considered of great importance that candidates for examination should have an extensive knowledge of the particulars of actual casualties which have occurred at sea, and be able to state how these might have been prevented, and how they were remedied.

Should a candidate have had no personal experience of any defects, and be unable to describe casualties to machinery which may have occurred in the experience of others, he should be closely questioned as to his knowledge of boiler and engine construction and repair.

As it is possible for a candidate to obtain pass marks in Practical Mathematics, although apparently unable to calculate horse-power from indicator diagrams, strength of boiler seams, etc., and, further, as a drawing may be passed as such although containing faults of a practical description, examiners should, as far as practicable, scrutinise the worked papers, and in each candidate's verbal examination include questions on such practical deficiencies as may appear in his papers.

The points on which a candidate fails in verbals must be reported on Exn. 37.

64. **Examination Results.**—The results of examinations should be communicated to all candidates.

65. **Voluntary Retirement to be discouraged.**—Voluntary retirement from any examination should be discouraged. Each first and second class candidate should be taken through the whole examination, at least on first presenting himself, in order that his ability in all four sections of the examination may be ascertained and recorded.

66. **Failure in Examination.**—Failure in subjects ignorance of which might lead an Engineer to do something actually unsafe in the management of any part of a ship's machinery (*e.g.*, questions on manipulation and reading of the water-gauge, the danger of fire and explosion in motor vessels, etc.), will be regarded as failure in practical knowledge, and any candidate so failing may not present himself for re-examination until he can produce proofs of six months' further service at sea in a qualifying capacity, as engineer on watch on the main engines or boilers of a foreign-going ship, or its equivalent in the home trade (nine months), subsequent to the date of failure.

Should a candidate fail through ignorance of fundamental principles or on account of general defectiveness throughout the examination, he should not be re-examined until after a lapse of six months. In such a case, if the candidate's deficiencies indicate the necessity for further study rather than practical experience, he need not be required to perform additional sea service.

In ordinary cases of failure, the candidate may present himself for re-examination at any time, but if he fails three times in any part or parts of the examination within any period of three months, he will not be re-examined until after a lapse of three months from the date of the last failure.

In any cases of failure the re-examination must embrace all the subjects.

67. **Reports of Examinations.**—Reports of examinations on form Exn. 37, together with the candidates' applications (form Exn. 3) duly completed, their lower grade Certificates, if any, and all examination papers which have not already been forwarded, should be sent to the Chief Examiner as soon as the examinations are finished. The candidates' discharges and testimonials, except such as are directly addressed to the Examiners, should be returned to them.

68. **Issue of certificates of competency.**—Certificates of competency shall be made and issued by the Government in the forms hereunto annexed.

69. **The certificate to be in duplicate.**—Every certificate of competency shall be made in duplicate and one copy shall be delivered to the person entitled to the certificate and the other shall be kept and recorded by the Port Officer, Calcutta.

APPENDICES.

APPENDIX C.

EXAMINATION IN PRACTICAL MATHEMATICS.

Specimen papers for both Ordinary and Motor Examination.

Second Class.

First Paper.

Do not deface or make any marks whatever on this paper.

Memoranda to be used in working the problems will be found on the first page of the answer book.

Do not copy the questions, but be careful to work the problems on the appropriate numbered pages of the answer book.

The following six questions are for both Ordinary and Motor Examination :—

1. If the effective diameter of a paddle wheel is 17 feet, how far does the ship advance when the crank shaft turns through 21·47 radians, allowing for 9 per cent. slip ?

2. Find the area of water level of a cylindrical boiler, whose diameter and length are 12 feet and 11 feet, respectively, if the distance from the crown of the boiler to the water level is 3 feet 2 inches.

3. How does the strength of a rectangular beam vary in proportion to its length, breadth and depth, respectively ?

A beam 2½ inches deep and 1½ inches broad, will safely stand a load of 510 pounds at its middle, the supports being 4 feet apart. How much would a beam of the same material, 6½ inches deep and 3 inches broad, safely carry if the distance between the supports is 6 feet 8 inches ?

4. A safety valve weighing 2¼ pounds is loaded by means of a lever and weight. The distance between the fulcrum and the centre line of the valve is 3 inches. The lever weighs 4 pounds and its centre of gravity is 10 inches from the fulcrum. If the valve blows off at a pressure of 85 pounds per square inch when a weight of 48·1 pounds is placed at a distance of 1 foot 10 inches from the fulcrum, what is the diameter of the valve ?

5. A vertical cylindrical tank, fitted with a hemispherical bottom, is 70 inches in diameter. It contains 35 hundredweights of oil of specific gravity 0·89. What is the depth of oil at the centre ?

6. Define specific gravity.

A 7 inches square log, 6 feet in length, floats in fresh water. If its specific gravity is 0·55, find what weight of lead would be required on top of it, to cause the log to float awash.

Second Paper.

The following three questions are for both Ordinary and Motor examination :—

7. What is "Acceleration," and how is it measured ?

A body is projected vertically upward with a velocity of 1,200 feet per second. Find the greatest height to which it will rise, and the time taken.

8. A mild steel tie-bar is 18 feet long, and is made of angle bar 3·5 inches × 2·5 inches × 0·42 inch. If the total pull on the bar is 19 tons, find the stress in pounds per square inch, and the extension of the bar. Take E=13,500 tons per square inch.

9. The thickness of the shell plating of a cylindrical boiler is $\frac{7}{8}$ inch, the diameter of the boiler is 8 feet; the strength of the joint compared with the solid plate is 74 per cent. and the tensile strength of the plate is 28 tons per square inch. What would be the factor of safety with a working pressure of 155 pounds per square inch ?

The following three questions are for Ordinary examination only :—

10. The boilers of a vessel contain 218 tons of water, and at the commencement of a voyage they were filled with fresh water. At the end of that voyage, owing to a leak in the condenser, the density of the water in the boilers was 3·75 thirty-seconds. If the average density of the water in the hotwell had been 0·15 thirty-seconds, how many tons of water have been evoperated during the voyage ?

11. What is meant by mean referred pressure ?

The diameters of the cylinders of a triple expansion engine are respectively 25, 46 and 69 inches, and the mean effective pressures are respectively 56·2, 21·1, and 10 pounds per square inch. Find the mean pressure referred to the low pressure cylinder ; and the indicated horse-power with a piston-speed of 820 feet per minute.

12. Steam is admitted to a cylinder at a pressure of 185 pounds per square inch by gauge, and the cut off takes place at 0·37 of the stroke, the clearance being equal to 4·9 per cent. of the stroke volume. Find the *absolute* pressure when the piston has passed through 0·86 of its stroke, taking the effect of clearance into consideration.

The following three questions are for Motor examination only :—

10. The fuel injection valve of a two-stroke cycle engine opens when the crank is 6 degrees in advance of the dead centre, and closes when the crank is 34 degrees past the centre. For what length of time is the valve open on each occasion, when the engine runs at 140 revolutions per minute ?

11. An engine is using 100 pounds of oil fuel per hour, the calorific value of the oil being 18,400 British thermal units per pound. If the exhaust gases contain 28 per cent. of the heat generated, what is the equivalent horse-power passing away with the exhaust ?

12. The diameter of the cylinder of a four-stroke cycle engine is 381 millimetres, and the stroke of the piston is 530 millimetres. Calculate the indicated horse-power at 205 revolutions per minute, the mean effective pressure being 97 pounds per square inch.

First Class.

First Paper.

Do not deface or make any marks whatever on this paper.

Memoranda to be used in working the problems will be found on the first page of the answer book.

Do not copy the questions but be careful to work the problems on the appropriate numbered pages of the answer book.

The following six questions are for both Ordinary and Motor examination :—

1. What is angular velocity ?

The angular velocity of an engine flywheel is 15·5 radians per second. If the stroke of the engine is 3 feet, find the piston speed in feet per minute.

2. A truck weighing 3 tons, and having a resistance on the level of 16 pounds per ton, is dragged up an incline of 1 in 20 at a speed of 50 feet per minute. Find the horse-power exerted.

3. Write done the formulæ used in finding the maximum bending moment in the following cases, and explain how they are obtained :—

(*a*) a beam, supported at the ends, and loaded at mid-length.
(*b*) a cantilever, loaded at its free end.

In each case the weight of the beam is to be taken into account.

A cantilever, 10 feet long and weighing 0·25 hundredweight per foot run, is loaded at its free end with a weight of 200 pounds Determine the maximum bending moment.

4. Two ships leave a port for another, 320 miles away. The slower ship leaves 6 hours ahead of the other, which is 3 knots faster, but arrives 5 hours after the faster ship. What are the speeds of the ships ?

5. A cylinder cover weighing 17 hundredweights is lifted by means of a chain having a hook at each end and a ring in the middle. The hooks are attached to eyebolts screwed into the cover 4 feet 6 inches apart If the tension on the chain when the cover is suspended is 0·58 of a ton, what is the total length of the chain in feet ?

6. A ship of 7,900 tons displacement and having a water-level area of 12,560 square feet, passes from sea water of a density of 1,026 to river water of a density of 1,007. During this time 123 tons of coal are burned. What is the total alteration in draught.

Second Paper.

The following three questions are for both Ordinary and Motor examination :—

7. Define Stress, Strain, and Modulus of Elasticity. A round iron bar, $\frac{1}{4}$ inch in diameter and 7 feet 5 inches long, stretches $\frac{1}{16}$ inch when a load of 4 hundredweights 40 pounds is suspended from its extremity. Determine the stress, strain and modulus of elasticity of this bar.

8. The longitudinal shell seam of a boiler is lapped and has three rows of rivets, the pitch of the outer rows being double that of the middle row. The plates are $\frac{1}{2}$ inch thick, and the diameter of the rivets is $\frac{1}{8}$ inch. The strength of the plates in tension is

29 tons per square inch, and that of the rivets in shear, 23 tons. If the calculated strengths of the plate and rivet sections are equal, what is (*a*) the pitch of the rivets, and (*b*) the percentage strength of the joint as compared with the solid plate ?

9. A hollow shaft, 14½ inches in external diameter, is coupled to a solid shaft 12⅛ inches in diameter. Both shafts are made of the same material and each weighs 394 pounds per foot run. If the torsional tress in the outer fibres of the hollow shaft when running is 8,000 pounds per square inch, find what it will be in the case of the solid shaft.

The following three questions are for Ordinary examination only :—

10. A slide valve has a travel of 6¼ inches and an angle of advance of 30 degrees. How far is the valve from its mid-position when the crank has turned through an angle of 35 degrees from either centre ?

11. If the boiler efficiency is 67 per cent., and that of the engine 17 per cent., how much coal supplying 13,560 thermal units per pound would be used per horse-power per hour ?

12. The high-pressure cylinder of a double-acting triple expansion steam engine is 28 inches in diameter, the stroke is 53 inches and the revolutions 90 per minute. The boiler pressure is 180 pounds per square inch, and the back pressure 63 pounds per square inch, both by gauge. The cut-off takes place at 0·4 of the stroke. Neglecting the effects of clearance, and assuming that pressure varies inversely as volume, calculate (*a*) the mean effective pressure and (*b*) the horse-power developed in this cylinder.

The following three questions are for Motor examination only :—

10. A four stroke cycle engine has a stroke of 2 feet, and the fuel injection valve opens when the crank is 6 degrees before the top dead centre, and remains open until the crank is 35 degrees past the centre. For how many inches of the piston's travel is this valve open ?

11. An engine, the mechanical efficiency of which is 77 per cent., is using oil of calorific value 18,000 British thermal units per pound. If the heat units passing away in the exhaust gases and the cooling water represent, respectively, 28·5 and 28·2 per cent. of those in the fuel consumed, how many pounds of oil are being used per brake horse-power per hour ?

12. The cylinder of a four-stroke cycle Diesel engine is 615 millimetres in diameter, and the stroke of the piston is 700 millimetres. Sketch the indicator diagram you would expect to take from this cylinder when the engine is running at 150 revolutions per minute, and calculate the indicated horse-power. If the daily oil consumption is 1·135 tons, what is the hourly consumption per indicated horse-power.

APPENDIX D.

Examination in working drawing.

The subjects for examination in drawing given for Second Class will be of a more simple character than those for First Class. The general requirements will, however, be similar.

The candidate will be expected to show that he is capable of making a dimensioned drawing of a part of the machinery, such that, if the drawing were sent home from a foreign port, the part in question could, if necessary, be accurately reproduced and the new article fitted in place on board the ship on her return, without alteration.

Specimen papers for both Ordinary and Motor Examination.

Second Class.

General Instructions.

1. *Draw the object clearly in pencil, but insert the dimension arrow-heads and figures in ink.*
2. *Working drawings to scale are required, and not pictorial representations.*
3. *Insert all the dimensions necessary for the construction of the object in the workshops, including those given in the question, and those purposely omitted.*
4. *Dimensions may be given in feet and inches, or in metrical units.*
5. *Do not draw more parts than are specified below.*
6. *The diagram to which the question refers is printed on the back of this sheet.*
7. *Credit will be given for correct projection.*
8. *The material of which different parts are to be made should be indicated on the drawing.*
9. *You must not have with you any books, notes, photographs, or paper other than that supplied to you for use at this examination.*

Bilge Distribution Valve Box.

The diagrams which follow represent half of a bilge distribution valve box, and a section of one of the covers.

Draw—

(*a*) a longitudinal section of the whole of the box, adding one of the valve seats;
(*b*) a plan; and
(*c*) an end elevation.

Particulars of the studs and bolt holes should be given, but none of the covers, valves or spindles need be drawn.

First Class.

General Instructions (as for Second Class).

Bilge Distribution Valve Box.

The diagrams which follow represent half of a bilge distribution valve box, and a section of one of the covers.

Draw—

(*a*) a longitudinal section of the whole of the box, adding the cover, spindle, and all other details pertaining to one of the valves;
(*b*) a plan; and
(*c*) an end elevation.

Particulars of the bolt holes should be given.

APPENDIX E.

Examination in Engineering knowledge.

Form to be filled up by all candidates at the examination.

EXN. 15 B. Port..... Class for which examined.....

Date..... Candidate's Name.....

What engineering and science subjects have you studied, and what certificates in these subjects do you hold? Mention the technical schools you have attended, and the length of time spent at each.

Specimens papers for Ordinary Examination.

Second Class.

First Paper.

Do not deface or make any marks whatever on this paper.

The questions are not to be copied. The answers should be written on form Exn. 15a or extra paper which will be provided if required.

All the questions should be attempted.

1. Write a report addressed to a Shipowner or Superintendent, describing defects in engines and boilers which have come under your notice (or about which you have received information), the causes of the defects and the methods of repair adopted, and suggesting preventive measures.

NOTE.—Attention should be paid to composition, spelling and punctuation, as it is important that a Second or Chief Engineer should be able to write technical reports in good English.

2. Describe a method of securing a liner in a large cylinder. In the case of a jacketed cylinder, how are the ends made steamtight ?

3. Explain the action of a double-ported slide valve, and illustrate your answer by means of sketches.

4. Give reasons why an internal combustion engine does not use so much fuel oil per horse-power hour as a steam engine with oil-fired boilers.

5. Sketch and describe a flexible and sliding coupling as used in connection with a marine geared turbine. State where this type of coupling is fitted, and explain the necessity for its use.

6 How are the stern tubes supported and secured in a modern twin screw merchant ship ? Illustrate your answer by means of sketches.

Second Paper.

7. Describe any special appliances which are used to produce the high vacuum required in the condenser of a marine turbine.

8. Describe a feed heater of the contact type and explain its action. In what position in the engine room is it placed, and for what reasons ? What effect, if any, can the use of such a feed heater have upon pitting and corrosion in the boilers ?

9. What is the composition and density of ordinary sea water ? Under what conditions are salt and scale, respectively, deposited in a boiler ?

10. Describe the conditions under which grooving at shell seams is likely to occur. Show how you would effect repair in a serious case of grooving at a shell seam. Illustrate your answer by means of sketches.

11. Enumerate in due order the appliances and fittings through which fuel oil passes on its way from storage tank to boiler furnace.

12. Describe some of the precautions which should be taken in order to prevent accident due to water-hammer action in steam pipes.

First class.

First Paper.

Do not deface or make any marks whatever on this paper.

The questions are not to be copied. The answers should be written on form Exn. 15b or extra paper which will be provided if required.

All the questions should be attempted.

1. Write a report addressed to a Shipowner or Superintendent, describing defects to engines and boilers which have come under your notice (or about which you have received information), the causes of the defects and the methods of repair adopted, and suggesting preventive measures.

NOTE.—Attention should be paid to composition, spelling, and punctuation, as it is important that a Second or Chief Engineer should be able to write technical reports in good English.

2. Define the term " ratio of expansion " as applied to a compound engine. How is the total ratio of expansion affected by clearance in each cylinder ?

Sketch the combined indicator diagrams of a compound engine.

3. Explain clearly why it is usual, in the case of an inverted engine, to arrange for greater lead at the bottom, and greater steam lap at the top of the slide valve. What is the effect of positive lap on the exhaust side of the valve ?

4. Describe, with sketches, a thrust block as used in connection with a Parsons marine turbine. Explain clearly how the propeller thrust is transmitted to the hull of the ship in the case of (*a*) direct acting turbines, and (*b*) geared turbines.

5. Describe the construction of double reduction gearing. Explain clearly how the gear is protected from axial thrust, and why this is necessary. Give an account of the principal defects which have occurred in connection with the working of these gears.

6. Why should ballast tanks be either full or empty, but not in partly filled condition ? Explain why it is undesirable to fill or empty two or more ballast tanks simultaneously.

Second Paper.

7. What are the scale-forming materials contained in sea-water, and at what temperatures are they deposited ?

What is the maximum density at which you would work boilers at sea, and for what reasons ?

8. What are the functions of an air pump? Describe an ordinary single acting bucket air pump, with its fittings and connections. Sketch the indicator diagrams you would expect to take from both ends of the pump.

9. Sketch the girders in place on the crown of a combustion chamber, and show in detail how the stays are fitted. Give the dimensions necessary for calculating the working pressure.

10. Explain how cutting a manhole in the shell plate weakens a boiler. Sketch and describe two methods of fitting compensating plates commonly used. How is the size of the plates determined?

11. What advantages are claimed in connection with the transmission of power from the engines to the propeller shaft by electricity? How is this accomplished?

12. What are the properties of carbon dioxide which render it useful as a refrigerating medium. Briefly describe the working cycle of a refrigerator in which it is used.

Specimen papers for Motor Examinations.

Second Class.

First Paper.

Do not deface or make any marks whatever on this paper.

The questions are not to be copied. The answers should be written on form Exn. 15b or extra paper which will be provided if required.

All the questions should be attempted.

1. Write a report addressed to a Shipowner or Superintendent, describing defects in main and auxiliary internal combustion engines which have come under your notice (or about which you have received information), the causes of the defects and the methods of repair adopted, and suggesting preventive measures.

NOTE.—Attention should be paid to composition, spelling, and punctuation, as it is important that a Second or Chief Engineer should be able to write technical reports in good English.

2. Sketch and describe the cylinder head for a large Diesel engine. Mention the principal defects to which cylinder heads are liable.

3. Describe a fuel pump for a marine Diesel engine, and explain its action. Show how the quantity of fuel is regulated to suit different loads.

4. Show how ignition is accomplished by electricity, by means of a hot bulb, and by the heat of compression, respectively Mention the type of engine with which each method is used.

5. How is an intercooler constructed? With which types of air compressors are intercoolers used? Mention the periodical examinations to which they should be subjected.

6. How are the stern tubes supported and secured in modern twin screw merchant ships? Illustrate your answer by means of sketches.

Second Paper.

7. State approximately the calorific value of Diesel oil. What proportion of this heat would you expect to be converted into useful work.

8. Sketch the indicator diagram you would expect to take from the cylinder of a four-stroke Diesel engine, and explain the working cycle with reference to the diagram.

9. Explain clearly how scavenging is effected in a Diesel engine.

10. Describe, with sketches, the construction of any type of boiler with which you may be familiar.

11. Mention the precautions which should be taken against fire or explosion in a vessel propelled by internal combustion engines. How would you deal with an outbreak of fire?

12. Describe a compound-wound electric generator, and explain its action.

First class.

First Paper.

Do not deface or make any marks whatever on this paper.

The questions are not to be copied. The answers should be written on form Exn. 15b or extra paper which will be provided if required.

All the questions should be attempted.

1. Write a report addressed to a Shipowner or Superintendent, describing defects in main and auxiliary internal combustion engines which have come under your notice (or about which you have received information), the causes of the defects and the methods of repair adopted, and suggesting preventive measures.

NOTE.—Attention should be paid to composition, spelling, and punctuation, as it is important that a Second or Chief Engineer should be able to write technical reports in good English.

2. Describe a fuel pump for a marine Diesel engine, and explain its action. Show how the quantity of fuel is regulated to suit different loads. In what respects, if any, does a fuel pump used for mechanical injection differ from one used in connection with blast injection?

3. Describe the arrangement of pistons, rods, etc., in a large engine of the opposed piston type, and explain their action. What is the difference between the arrangements of the principal working parts in engines of the Junkers, and of the Fullagar types?

4. State approximately the mechanical efficiencies of engines of the two-stroke and of the four-stroke types. Account fully for any difference which may exist between these efficiencies.

5. Give a description of an electrically driven steering gear. Explain its action, and the manner in which it is controlled. Show how the rudder is released when struck by a heavy sea, and how it is automatically returned to its former position.

6. Why should ballast tanks be either full or empty, but not in partly filled condition? Explain clearly why it is undesirable to fill or empty two or more ballast tanks simultaneously.

Second paper.

7. State approximately the calorific value of heavy oil as used in Diesel engines. What proportion of this heat would you expect to be converted to useful work? Give an account of what becomes of rest of the heat, stating the proportion in each case. In what manner might some of the heat usually wasted be applied to useful objects?

8. Sketch the indicator diagrams you would expect to take from the cylinders of—

(*a*) a four-stroke Diesel engine:

(*b*) a two-stroke Diesel engine:

(*c*) a Bolinder engine:

(*d*) a petrol motor,

and explain the working cycle with reference to the diagram in each case. The pressures should be approximately to scale.

9. Explain clearly how both port and valve scavenging are effected in Diesel engines. Discuss the relative merits of both systems. Illustrate your answer by means of diagrammatic sketches.

10. Describe the construction of any type of water-tube boiler. Illustrate your answer by means of sketches, showing the position of all necessary fittings, and give a complete index of the various parts.

11. What are the precautions which should be taken against fire or explosion in a vessel propelled by internal combustion engines? How would you deal with an outbreak of fire? Describe a suitable fire-extinguishing apparatus, and explain its action.

12. Describe a compound wound electric generator. What attention does it require when working? What care is necessary for its maintenance in satisfactory condition? What is the object of the compound winding, and how is it accomplished?

APPENDIX F.

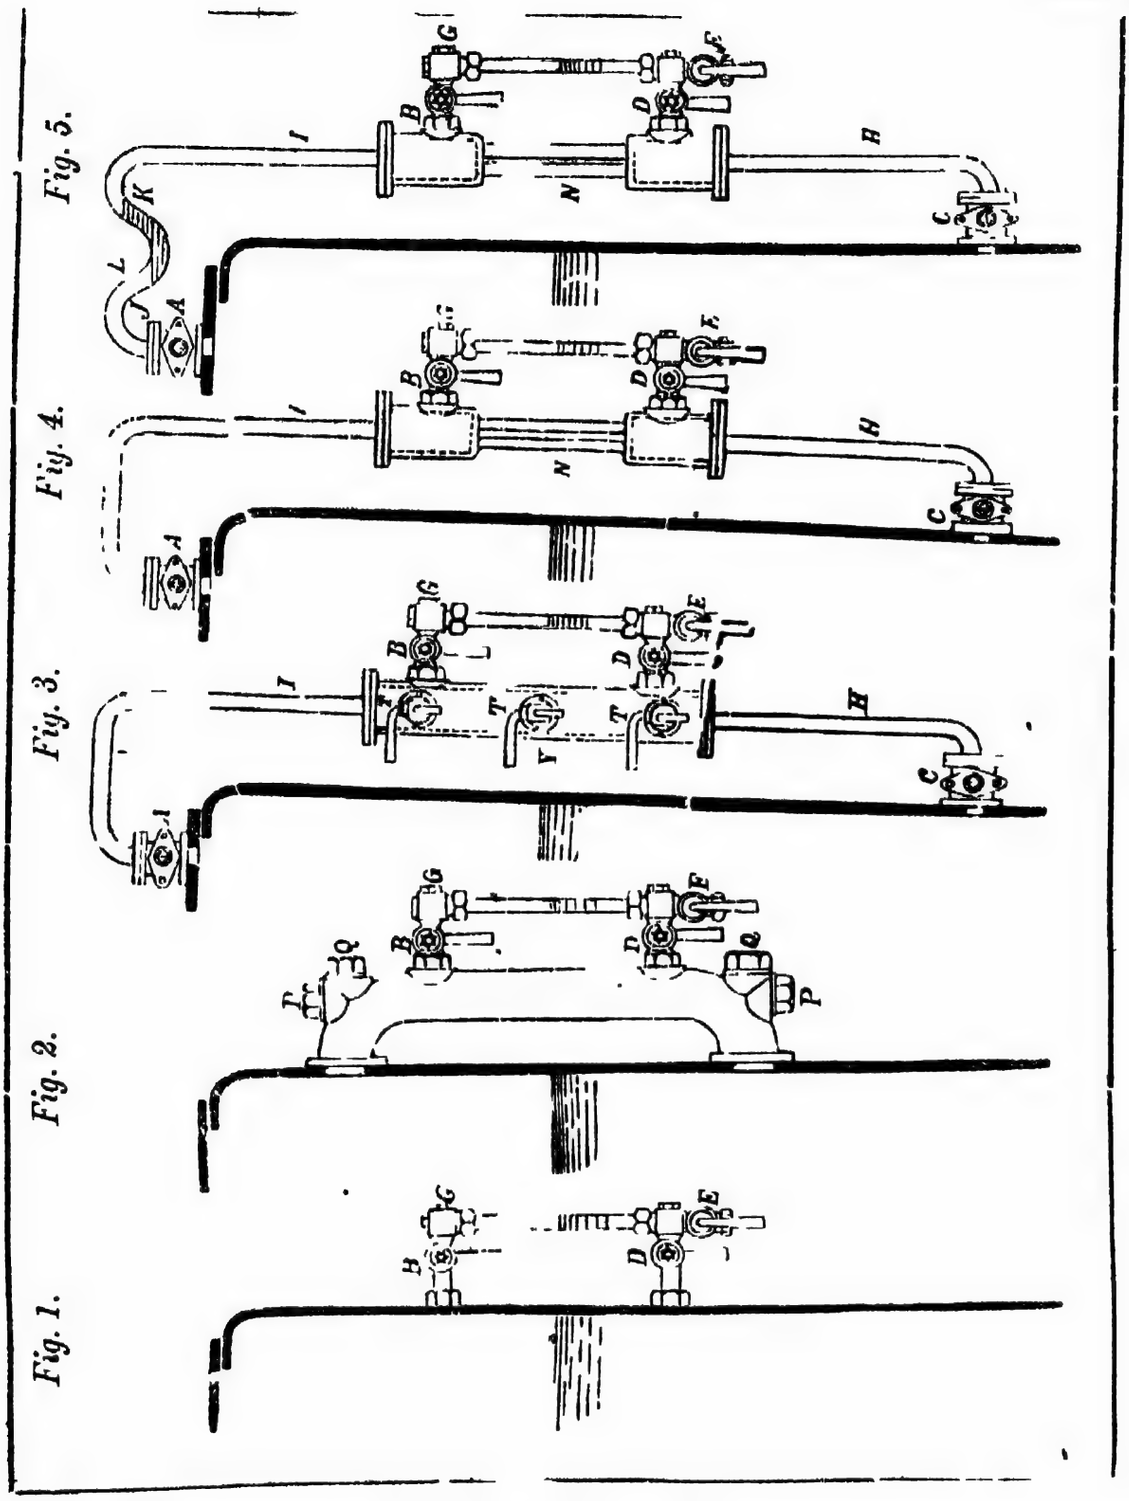
Reading the water-gauge.

Notwithstanding that the reading of the water-gauge is made a special feature in the examination of Engineers, many boiler casualties result from the Engineer of the watch either not understanding the construction of the water-gauge fittings or not satisfying himself by actual trial that the cocks, pipes, etc., are clear.

Unless a candidate under examination is able to prove that he understands how to verify the indications of the water-gauge, he should not be passed in practical knowledge, and, as failure in practical knowledge involves the candidate going to sea for another six months before being eligible for re-examination, the Examiner should explain to such candidate his error, after failing him, in order to prevent further casualties resulting from his want of knowledge on this subject.

The sketches, Figures 1, 2, 3, 4 and 5, Plate I, represent the usual methods of attaching water-gauge mountings to marine boilers, the smoke-boxes being omitted, for convenience, from Figures 3, 4 and 5. The important features in each gauge and the method of verifying its indications are dealt with separately in the following remarks.

Plate 2.



Referring to figure 1 only.

In this case the water-gauge cocks are attached direct to the boiler, and the accuracy of the gauge when the boiler is under steam can be tested as follows :—

First.—Let B remain open, then close cock D and open cock E, and if steam issues it proves that cock B and the passage through the top fitting and gauge glass are clear. If no steam or water issues, either cock B or the passage through the top fitting and gauge glass is choked and the gauge cannot act properly until the obstruction is removed.

Second.—Close cock B and open D and E, and if water issues, cock D is clear. If no water or steam issues, either cock D or the passage from the boiler through the lower fitting is choked and must be cleared before the gauge can act properly.

Referring to Figure 2 only.

In this case the gauge cocks are attached to a bent pipe of comparatively large diameter (at least 3 inches in the bore), the upper end of which communicates with the steam space, and the lower end with the water space of the boiler. Owing to the bore

of the pipe being large, it is not likely to become choked or stopped under the ordinary conditions of working. The water-gauge is, therefore, in practically the same condition as if it were attached direct to the boiler, as in Figure 1. This gauge, when at work, is tested in precisely the same manner as the one shown in Figure 1.

Screw plugs are inserted at P.P. and Q.Q. by the removal of which the apertures in the pipe can be cleared, if necessary, by the insertion of a wire or rod when steam is down.

Referring to Figure 3 only.

In this gauge there is an open communication from A to C through the column Y, and in order to "blow through the *glass*" it is only necessary to shut cocks D and B alternately, keeping E open. But to "blow through the *water-gauge*," including the pipes H and I, it is necessary, after blowing through the glass as described above, to shut A and C alternately, at the same time keeping B, D and E open for such time as will ensure the complete discharge of the contents of the gauge and its connections. When B, D and C are clear and A choked, the steam lodging in the glass and in the pipe I leading from column Y to A becomes condensed and the water flowing through C to take its place rises in column Y and in the glass to a level above that of the water in the boiler. In other words, the gauge shows a false level. If now E be opened and water is blown out, then on E being again closed the water in the gauge will rise higher than before and be still further misleading. On the other hand, when B, D and A are clear and C choked, the water, if any, in the glass is trapped and no longer rises and falls with the water in the boiler or with the motion of the vessel; it, however, slowly rises in the glass owing to the condensation of the steam in the upper part of the gauge until such time as E is opened, when the whole of the water in the glass is blown out; and on E being closed, the glass does not show any water, notwithstanding that the water in the boiler may be at the proper level. When the test cocks T.T.T. are attached to column Y, as shown in Figure 3, they cease to be reliable when either cock A or C or the pipe in connection therewith is choked, or nearly choked.

Referring to Figure 4 only.

Sometimes the water-gauge fittings are arranged as shown in Figures 4 and 5, with no passage up the column, the central portion (N) of the column being simply a pillar or connecting piece of any convenient section between the upper and lower portions to which the cocks B and D are attached.

By this arrangement double communications are obviated and there is no need for what is known as "double shut off" in testing the accuracy of the gauge. When, however, the gauges are constructed in this manner, the cocks B and D are unreliable as test cocks in the event of there being no glass in the gauge. This feature should be carefully noted. Moreover, when in working condition, the reduction of pressure in the glass which arises when E is opened causes the water in pipe H to rise above its normal level. This objectionable feature should also be noted.

Referring to Figure 5 only.

Sometimes there is a bend, L, in the steam pipe I leading from cock A to cock B. This has occasionally escaped observation when new boilers have been fitted on board ship. In most cases this bend arises from the pipe being led in an abnormal direction to escape other pipes, beams or fittings near the smoke-box. With such a bend the condensed steam collects in the pipe and falls to the bottom of the bend, and in time it completely fills the pipe from J to K. The steam from K down to the level of the water in the glass is thereby trapped and, as condensation proceeds, leads to a reduction of pressure in the pipe below that of the boiler and an equivalent rise of the water in the bend and also in the gauge glass. When the vessel is quiescent the water in the gauge glass increases in height until cock E is opened or until the pressure in the boiler is so much in excess of that in the lower part of pipe I as to cause the water in the bend to be blown into the gauge glass. In either case instantaneous change of water level in the glass ensues.

In the ordinary course of working, the phenomenon described above is more or less modified by the presence of air in the upper part of the gauge and by the rise and fall of the water in the boiler and gauge glass arising from the rolling or pitching motions of the vessel.

Other Special Points to be noted.

When the cocks A and C are omitted, as in Figure 2, it is owing to the bore of the stand pipe being sufficiently large to enable it to be regarded as part of the boiler. Such pipes require, however, to be examined and cleared at intervals by passing a rod through the holes provided for the purpose at P.P. and Q.Q.

Cocks at A and C are not necessary for the testing of gauges arranged as shown in Figures 4 and 5. Examiners ought, however, to make sure that candidates are aware of the impossibility of testing the reliability of the indications of water-gauges arranged as in Figure 3 when the cocks A and C are absent, and of the effect which the choking of cock A or C or pipe H or I has on the indications of the test cocks T.T.T. attached to column Y.

Probably more than half the steamers afloat are fitted with water-gauges as shown in Figures 3 and 4, and it is therefore specially important that engineer candidates should thoroughly understand their construction, the principle on which they act, and the steps which must be taken to keep them in an efficient condition.

When fitting a gauge glass into its place, it is specially important that it should not be placed so high as to prevent a clearing rod being inserted at G, Figures 1, 2, 3, 4 and 5. This defect, especially if it occurs in a water-gauge attached to a boiler subject to priming, permits a rapid accumulation of scum around the top of the glass and results in the choking of the orifice leading from cock B to the gauge glass in each of the figures.

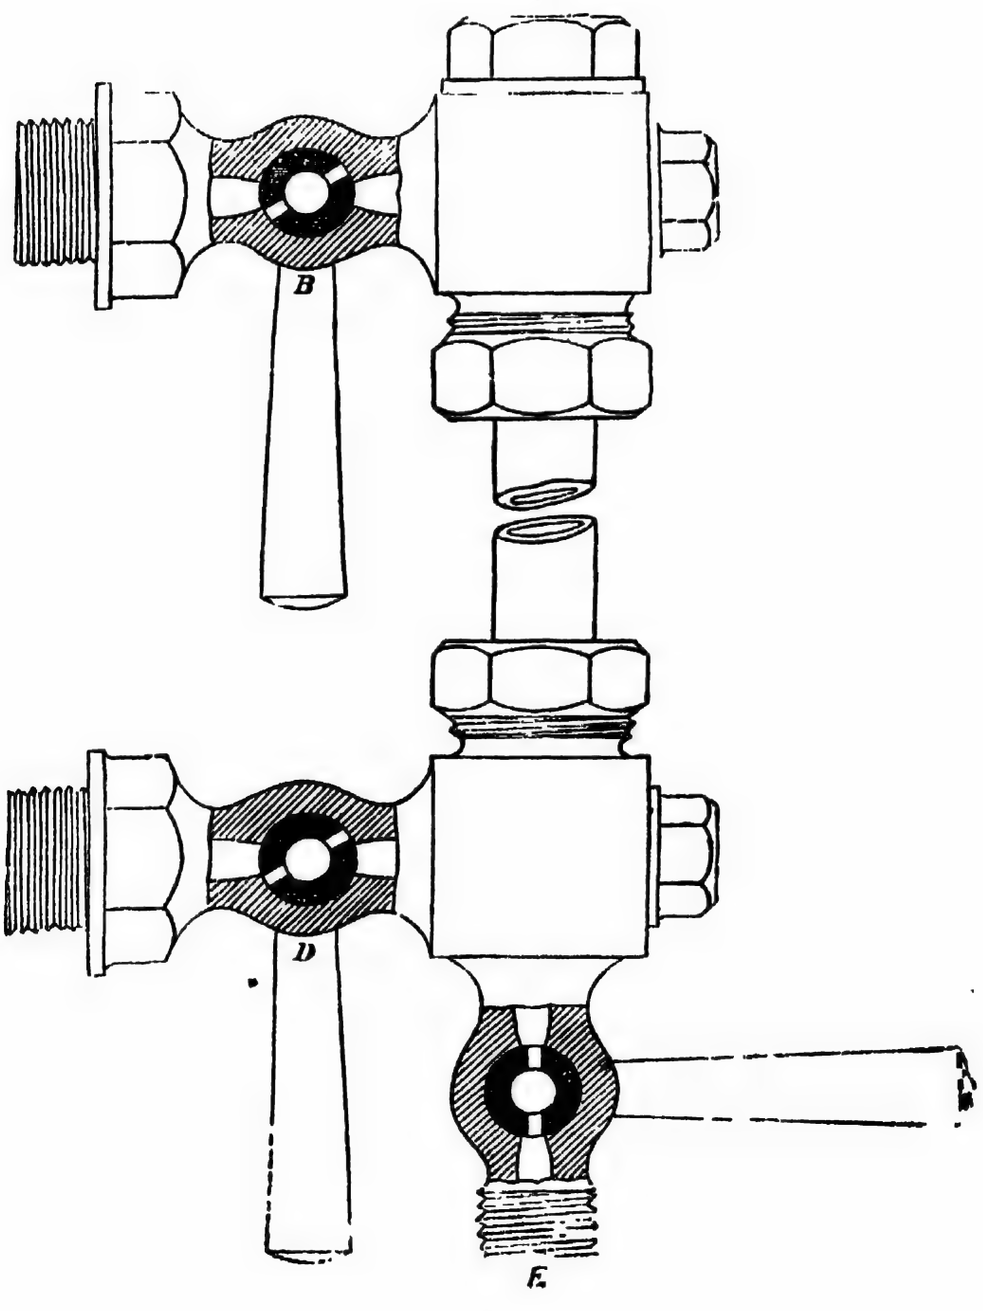
When a gauge glass is too short, or is placed either too high or too low in the fittings, it is also liable to become choked by the packing material being forced over its ends by the glands whilst being screwed up.

The use of unsuitable or insecure internal pipes in connection either with the ordinary glass gauge cocks of the description shown in Figure 1, or with test cocks which are jointed to the boiler itself, should also be carefully guarded against.

Boiler casualties have resulted from the cocks B and D having the parts wrongly placed as shown in Figure 6, Plate II. In one case of that kind, which forms the subject of Report No. 208 under the Boiler Explosions Acts, the engineer in testing the water-gauge omitted to see that the passages in the cocks B and D were clear *when the handles were in their proper working position*. This defect could easily have been discovered if proper attention had been paid to the condition of the cocks. A defect of this nature may be due to faulty construction originally, or to the handle of the cock having been over-strained, and the neck twisted. Whether the passages in the plugs are fair and clear can, however, be verified in a few minutes. As an illustration, the water cock D, Figure 6, Plate II, can be verified by blowing through E with B shut and then moving the handle of D to one side until it is just closed, and then to the other side until it is again just closed; the proper working position of the handle is about equally distant from each of the above positions. The other cocks can be verified in the same manner.

Plate 3.

Fig 6



Another serious casualty occurred through the handle of the cock A, Figure 3, having been twisted from its original position relatively to the orifice of the cock, resulting in the cock being shut when apparently open.

When a water-gauge, that is clear in all its parts, has been thoroughly blown through, the water in the glass rises above the level at which it formerly stood, immediately the drain cock E is closed, but if left undisturbed for a time it gradually falls to its former position. The amount of rise which occurs on these occasions depends chiefly on the temperature of the contents of the boiler and on the length of the pipes by which column Y is connected top and bottom to the boiler, but in cases where the gauge is of the description illustrated in Figures 3, 4 and 5, it amounts in high pressure boilers to about 4 inches, while the time occupied by the water in returning to its former level ranges from 30 to 40 minutes. The cause of this rise is twofold, namely (*a*) the displacement of the comparatively cold water in pipe H by hotter and proportionately lighter water from the boiler, and (*b*) a slight condensation of the steam and a corresponding fractional reduction of pressure in pipe I. The cause of the gradual subsidence of the water in the glass to its former level is also of a dual character, namely, (*a*) the cooling of the water in pipe H, and (*b*) the diminution in the condensation of steam in pipe I owing to the collection therein of air released from the steam condensed.

These results will, however, be somewhat modified if the water in the boiler is of higher density than in pipe H, and this will nearly always be the case owing to the condensation of the steam in the glass and upper fittings of the water gauge, causing the water in the lower part to be fresher than that in the boiler.

The Examiner should impress upon candidates the necessity for periodically blowing through the water-gauge on each boiler (no matter what the form may be) in a systematic and thorough manner, and, in cases where a boiler is fitted with two water-gauges, of keeping both in constant use; finally, he should further impress upon them the necessity for keeping the water-gauges well-lighted, clean, and in all respects efficient.

(SEE RULE 43.)

Technical Schools recognised by the Government of Bengal.

The following is a list of Technical Schools attendance at which is recognised by the Government as affording remission of some period of the service required to qualify a candidate for examination for a Certificate of Competency as Engineer.

(*I*) *Day Classes.*

When nothing is stated to the contrary, time spent in attending the day classes in Mechanical Engineering of a recognised Technical School is accepted as equivalent to workshop service in the ratio of three years of the former to two of the latter, provided the applicant was over fifteen years of age (or fourteen years of age in the case of students at Junior Technical Schools) and can produce the Principal's certificate for continuous and regular attendance at all the approved classes and for satisfactory progress. Such time cannot as a rule be accepted as equivalent to more than two years' workshop service.

(*a*) Name of School or Institution (for Seniors).

Belfast.—Municipal Technical Institute, Belfast.

*Birmingham.—University of Birmingham.

†Birmingham.—City of Birmingham Municipal Technical School, Suffolk Street, Birmingham. (Afternoon Classes.)

No. F-896-24.—The following proclamation of the Government of the Colony of Mauritius extending their Maintenance Orders (Facilities for Enforcement) Ordinance No. 58 of 1920, as amended by their Ordinance No. 20 of 1922 to British India, is published for general information :—

Proclamation No. 8.

IN THE NAME of His Majesty GEORGE V, by the Grace of God, of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas, King, Defender of Faith, Emperor of India,

&c., &c., &c., &c., &c.,

A. GRANNUM.—*By His Honour* EDWARD ALLAN GRANNUM, *Esquire, Companion of the Most Distinguished Order of Saint Michael and Saint George, Officer Administering the Government of the Colony of Mauritius and its Dependencies,*

(L.S.)

&c., &c., &c., &c., &c.,

Whereas it is enacted by article 12 of the Maintenance Orders (Facilities for Enforcement) Ordinance, 1920, as amended by the Maintenance (Facilities for Enforcement) Ordinance, 1922, that "where the Governor is satisfied that reciprocal provisions have been made by the Legislature of any British possession of any territory under His Majesty's protection for the enforcement within such possession or territory of Maintenance Orders made by Courts in Mauritius, the Governor may, by proclamation, extend this Ordinance to Maintenance Orders made by Courts within such possession or territory and on any such proclamation being published, this Ordinance shall apply to such Maintenance Orders as if they had been made in England or Ireland";

And whereas I am satisfied that reciprocal provisions have been made by the Indians Legislature for the enforcement within British India of Maintenance Orders made by Court in Mauritius;

Now, therefore, in virtue of the power vested in me by the abovementioned enactment, I do hereby extend the Maintenance Orders (Facilities for Enforcement) Ordinance, 1920, as amended by the Maintenance (Facilities for Enforcement) Ordinance, 1922, to Maintenance Orders made by Courts within British India.

GOD SAVE THE KING!

No. F.-686-1-24.—Mr. Walter Gasper Gregory, Barrister-at-Law, took his seat as an Additional Judge of the High Court of Judicature at Fort Willam in Bengal, on the forenoon of the 27th March 1925.

The 4th June 1925.

No. F.-937-24.—The following amendments to the revised rules fixing the salaries, allowances, furloughs, retiring pensions and (where necessary) expenses for equipment and voyage of the Chief Justice and other Judges of the Indian High Courts, which were published with the notification of the Government of India in the Home Department No. F. 70, dated the 29th December 1922, and subsequently amended, were made by the Secretary of State in Council on the 21st April 1925 and are published for general information. They take effect from the 1st July 1924.

1. In Rule 1 of the said rules the following shall be inserted after clause (*b*) of the definition of " Actual Service " :—

"(*c*) joining time for a Judge on transfer from one High Court to another ".

2. The following new rule 4-A shall be inserted after Rule 4 :—

"*Section 1-A.—Joining time.*

4-A. A Judge transferred from one High Court to another may be allowed joining time to the extent admissible to a Government servant under the administrative control of the Governor General in Council."

3. The following new rules 37—40 shall be inserted after rule 36 :—

" 37. When a Government servant, appointed to be a Judge, travels by railway to join his post, he may, at his option and in lieu of drawing travelling allowance under the ordinary rules governing a journey on transfer applicable to him, travel in a reserved first class compartment.

The Government servant, when he avails himself of this concession, must pay to Government the fare which he would have paid if no accommodation had been reserved, and must, in addition, pay in cash to the station master of the station from which the journey commences, the fares for any members of his family accompanying him, whether they share his reserved accommodation or not. When Government pays full tariff rates for the accommodation, all such fares will be credited to Government.

38. When a person not already in Government service is appointed to be a Judge, he may, when travelling by railway to join his post, travel in a reserved first class compartment on the condition described in rule 37.

39. When a Judge travels by railway—

(*i*) when proceeding on or returning from leave, or

(*ii*) when retiring from the service or proceeding to join another post after resigning office, he may travel in a reserved first class compartment on the condition described in rule 37.

40. When a Judge is transferred from one High Court to another, there shall be paid to him the expenditure actually incurred by him on his journey by railway or by steamer to the place of the sitting of the other High Court for the transport of the following persons and goods :—

(*i*) The Judge himself by a reserved first class compartment or a reserved first class cabin (if one is available) ;

(*ii*) any members of the family of the Judge normally resident with him who do not travel in the reserved compartment or cabin by passenger train or steamer at first class rates ; for the purpose of this rule the family of the Judge means his wife, his legitimate children and his step-children residing with him ;

(*iii*) personal servants, not exceeding eight in number by passenger train or steamer at lowest class rates ;

(*iv*) personal effects, not exceeding the expenditure which would be incurred in the transport of 60 maunds of goods by road and by goods train or steamer, and the expenditure incurred in embarking and disembarking such personal effects ; and

(*v*) conveyance and two horses or a motor car by passenger train or by steamer at owner's risk.

SUIT No. 1665 OF 1924.

In the High Court of Judicature at Fort William in Bengal.

ORDINARY ORIGINAL CIVIL JURISDICTION.

Banku Behari Dhar & Sons *versus* Balai Chand Mitter.

Sheriff's sale proclamation.

TO be peremptorily sold pursuant to the order of the High Court of Judicature at Fort William in Bengal in its Ordinary Original Civil Jurisdiction, dated the 20th day of February 1925, made in execution of the decree of this Hon'ble Court, dated the 8th day of July 1924, in the above suit by the Sheriff of Calcutta in his sale-room on the ground floor of the High Court by public auction, on Friday, the 24th day of July 1925 at 12 o'clock noon, the undermentioned property of the defendant Balai Chand Mitter :—

All that undivided one fifth part or share of the defendant Balai Chand Mitter of and in all that partly three storied and partly two storied brick built messuage, tenement or dwelling house together with the piece or parcel of land thereunto belonging whereon or on part whereof the same is erected and built containing by estimation 4 cottas and 11 chitaks more or less situate lying at and being premises No 69 3 (formerly No. 69 2), Sikdar Bagan Street, in Sootanutty in the north division of the town of Calcutta and butted and bounded in manner following, that is to say, on the north partly by premises No. 7, Mohun Bagan Lane, and partly by premises No. 11, Mohun Bagan Lane, on the east by a private lane, on the south by 69-2, Sikdar Bagan Street, and on the west partly by premises No. 69-4, Sikdar Bagan Street, and partly by Sikdar Bagan Street.

It appears from a search made in the Calcutta Registration office from the year 1865 to 23rd day of May 1925, that the said property of the defendant is affected by no mortgages, charges, trusts or other encumbrance whatsoever save and except one mortgage executed on 21st December 1922 by (1) Debendra Nath Mitter, (2) Probodh Chandra Mitter, (3) Balaichand Mitter, the defendant herein, (4) Sasadhar Mitter, (5) Baikuntha Nath Mitter and (6) Sreemutty Mooktakeshi Dasee in favour of one Rajmohan Roy Chowdhury, of No. 37, Sovabazar Street, for Rs 8,000 with interest thereon at the rate of 10 per cent. per annum payable monthly with quarterly rests in account.

The sum for the recovery of which the sale has been ordered is Rs. 1,853-12-2 (besides interest and costs of the execution proceedings)

Karachi—Direction Finding Wireless Station opened.

No. 244 (third publication).—

Position.—Lat. 24° 50′ 55″ N., Long. 67° 03′ 29″ E.

Details.—A Direction Finding Wireless Station has been opened at Karachi and is now available for giving bearings to ships.

For the present the service will be regarded as experimental and no charges will be raised against ships calling for bearings.

Commanders of vessels entering Karachi are requested to use this service as much as possible and to submit to the Divisional Engineer, Wireless Engineering Division, Karachi, a report monthly embodying the results obtained and their usefulness for navigational purposes.

The method of calling for bearings is as follows :—

The ship calls VWK (Karachi Radio Station) in the usual manner and then gives QTE.

VWK then replies giving QTE.

The ship then gives

CT VWK DE (the ships call repeated for 2 minutes).

VWK will then call the ship and give the bearing as observed on the Direction Finding.

It is pointed out that the bearings given are great circle bearings and therefore allowance should be made for half-convergency when converting them into Rhumb line bearings for laying off the ship's position on a chart.

Owing to inherent errors occurring in bearings obtained during sunrise and sunset periods the station will be closed from 0530 to 0830 and 1730 to 2030 I. S. T. daily.

2. Ships approaching Bombay may also make use of the Direction Finding at Karachi until the Bombay Direction Finding is ready.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 17th June 1925.

Summary.—During the week the rainfall was generally light to moderate throughout the Presidency. Preparation of lands for transplanted winter paddy and sowing of seeds in nurseries are progressing favourably. Weeding of jute and autumn paddy continues in East and North Bengal and sowing is still proceeding in some West Bengal districts. The condition and prospects of standing crops are generally satisfactory. The average price of common rice for the province has slightly risen as compared with that of the previous week.

H. D. BANERJI, for *Director of Agriculture, Bengal.*

DACCA, *the 19th June 1925.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for May 1925.

I. **Character of the season.**—During the month rainfall was general throughout the Province. Precipitation was above the average in fourteen districts and below normal elsewhere. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Sowing of jute and autumn paddy and ploughing of fields for transplanted winter rice were proceeding in the West Bengal districts, while excessive rain impeded the field operations in North and East Bengal.

III. **State of standing crops.**—The state of the paddy crops was generally satisfactory, but jute has been damaged by excessive rain and sudden rise of rivers in East and North Bengal.

IV. **Prospects and probable outturn.**—Excepting damage referred to above the prospects of standing crops were generally satisfactory.

V. **Damage to standing crops.**—Considerable damage to jute was done as stated above in North and East Bengal.

VI. **Condition of agricultural stock.**—The condition of agricultural stock was generally fair. Stray cases of cattle-disease were, however, reported from sixteen districts.

VII. **Failure of pasturage and fodder.**—No insufficiency of fodder was reported from any part of the Presidency.

VIII. **Prices of food-grains.**—During the second fortnight of the month the prices of common rice of the cheapest quality fell in six districts, rose in twelve and remained stationary in the rest of the Province. The price ranged from 4½ seers per rupee at Dacca to 7½ seers per rupee at Bankura.

IX. **Condition of agricultural population.**—The condition of the agricultural population was reported to be fair, on the whole.

R. S. FINLOW,
Director of Agriculture, Bengal.

GOVERNMENT OF BENGAL.

Finance Department.

NOTIFICATION.

No. 6431F.—The 30th June 1925.—The following notification issued by the Government of India in the Finance Department, published in the *Gazette of India Extraordinary*, dated the 30th June 1925, is republished for general information

J. A. WOODHEAD,
Secretary to the Government of Bengal.

GOVERNMENT OF INDIA.

FINANCE DEPARTMENT.

NOTIFICATION.

No. F. 47-F.

Simla, the 30th June 1925.

From the 13th July to the 12th September 1925 inclusive (*a*) holders of 5½ per cent. War Bonds, 1925, and 6 per cent. Bonds, 1926, will have the option of converting their holdings either into the 5 per cent. income-tax free Loan, 1945-55, or into a new issue of 5 per cent. Ten-year Bonds, 1935; and (*b*) holders of 6 per cent. Bonds, 1927, and 5½ per cent. War Bonds, 1928, will have the option of converting their holdings into the 5 per cent. income-tax free Loan, 1945-55.

I.—FIVE PER CENT. INCOME-TAX FREE LOAN.

2. DATE OF REPAYMENT.—If not previously repaid, the Loan will be repaid at par on the 15th October 1955; but the Government of India reserve to themselves the

right to repay the Loan, or any part of it, at par on or after the 15th October 1945 on giving three calendar months' notice in the *Gazette of India*.

3. INTEREST.—Payable half-yearly at the rate of 5 per cent. per annum on the 15th April and the 15th October.

Interest on the Loan will be income-tax free throughout its currency, but will be taken into account in determining the rate at which the tax will be levied on other income and will be liable to super-tax.

4. DEPRECIATION FUND.- In accordance with the undertaking given by Government at the time of previous issues of this Loan, a sum equal to 1½ per cent. of the aggregate amount of the Loan inclusive of the 1919, 1920, 1923 and 1924 issues and of this issue will be set aside annually to form a fund to be used for its purchase and cancellation when the market value falls below Rs. 100 per cent. Should any future issue be made at a price higher than Rs. 100 per cent., the fund will be employed for the purchase and cancellation of the Loan when the market price falls below such higher issue price. No future issues will be made at a price below Rs. 95 per cent.

II.—FIVE PER CENT. TEN-YEAR BONDS, 1935.

5. DATE OF REPAYMENT.- The Government of India undertake to repay the Bonds at par on the 15th September 1935.

6. INTEREST.—Payable half-yearly at the rate of 5 per cent. per annum on the 15th March and the 15th September.

Interest on the Bonds will be liable to income-tax.

CONVERSION TERMS.
